The Trustees present their report and accounts for the year ended 31 March 2026.

The financial statements have been prepared in accordance with the accounting policies set out in notes to the accounts and comply with the charity's Trust Deed, the Charities Act 2011 and Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland published on January 2019.

Objectives

The object of the charity is the relief of sickness and distress, the preservation of health, the relief of poverty and the advancement of education of children and young persons in Nepal.

Review of the year

The support CHANCE for Nepal donors means everything to a small charity like ours. It means we are able to continue supporting our long-term projects and because of this, hundreds of children have received an education either by our funding of school buildings or through educational sponsorship, hundreds of children every month receive nourishment through our Tiffin Programme, hundreds of children received better health care through our support of 3 burns units and two Health Posts in remote areas plus not forgetting our four-legged friends that were vaccinated against rabies.

OUR CURRENT PROJECTS

Travel time by road from Kathmandu: Surkhet 15hrs, Dang 10hrs, Chitwan 6hrs, Hetauda 4hrs, Ramechhap 5hrs.

1. Kathmandu
NNSC Children's Home
Sneha's Care

Kanti Children's Hospital

Kirtipur Hospital
Bir Hospital

2. Dang
Health Post

3. Hetauda
Siddhasthali Rural
Community Hospital

4. Chitwan
Shree Secondary School

5. Surkhet
Ghatgaon - Shree Kalika School
Paisara - Malika School

6. Ramechhap
Yangchemna Academy

ACHIEVEMENTS

- Opened 2 new school buildings in the region of Surkhet
- Funded 100 school bags made from recycled denim for the above schools
- Funded 1000 anti-rabies vaccinations for our four-legged friends
- Funded 2 eminent cardiac and pulmonary consultants from Kathmandu to attend a weekend health camp at Siddhasthali Rural Community Hospital in Hetauda
- Funded the implementation of Social Security Health Fund programme at Siddhasthali Rural Community Hospital, Hetauda
- Funded the food and utilities for 9 college students in rented accommodation
- Funded Tiffin program – 4,300 meals monthly at Shree School in Chitwan
- Funded a teacher's salary, computers and teaching aids at Yangchenma Academy
- Funded in Kanti, Kirtipur and Bir Hospitals
  672 Physiotherapy sessions
  985 Family Counsell Sessions
  283 Food Baskets
  175 Goody Bags
- We have 8 students receiving educational sponsorship
- Funded - greenhouse, fridge, 6 months gas, 2-night mini break and 30% of the food costs for the children at the New Nepal Society Center
- Funded a nurse's salary and medicines for two health posts in Dang.
- Emergency medical help for Ashika who is suffering from Pemphigus Foliaceus, a very rare autoimmune condition. Being a small charity, CHANCE was able to act swiftly to make a difference.

HEALTH

Siddhasthali Rural Community Hospital in Hetauda

We were delighted to be involved in supporting free Cardiac and Chest health camps at the hospital. Two top consultants in their fields of Cardiology and Pulmonology held clinics bringing their expertise to hundreds of patients from low economic communities. Many of these patients had long suffered from serious health conditions they couldn't afford to have diagnosed or treated. Beyond diagnostics and consultations, free medications for heart disease, diabetes, and general health concerns were also given to ensure ongoing treatment.

In September Dr Aban, the founder of the hospital, asked for support for an exciting initiative implementing a Social Security Health Fund. My thanks go to Simon Bucknall, a supporter of CHANCE who funded the IT necessary for this programme. Dr Aban said, ***'This initiative will make quality healthcare more accessible and affordable for our community by covering essential medical services under its health insurance program.'***

Families now access a wide range of services - consultations, lab tests, pharmacy, dental, and emergency care - without the worry of large out-of-pocket expenses. The scheme covers not only individuals but also their dependent family members.

Funding for two remote Health Posts with GMIN (Grassroot Movement in Nepal)

We are delighted to fund the salary of a nurse and a year's supply of medicines at a remote Health Post in Dhubicohur and medicines for the Health Post in Purandhara, the construction of which was funded by CHANCE in 2018. Both Health Posts see 2,500 – 3,000 patients annually and are in the Dang region, 330kms West of Kathmandu.

Health Post in Dhubicohur

Burns Units – BVS

We have been supporting BVS (Burns Violence Survivors) since its conception in 2008, making them our longest running partner on the ground in Nepal. They are a dedicated team who strive to make a significant difference to burns patients, not only at the Kanti Children's Hospital but also at the Kirtipur and Bir hospitals where CHANCE also supports the nutrition for the children on the burn's unit. During the last 12 months CHANCE has funded 283 nutritional food baskets for these two hospitals. Extra calories aid a speedier recovery.
Below are two case histories:

Devi is 18 months old and lives with her parents and older sister in Bagmati. Her father is a furniture maker and mother a housewife. The family are of low economic status. Devi's father was at work, and Devi was inside the kitchen with her aunt who was heating butter (ghee) to cook a Nepalese stew (jaulo). Her aunt went outside to wash the rice for the stew and left Devi playing by the kitchen rack when the pot of ghee fell off the cooker and spilled over her. Her mother heard her cry and rushed into the kitchen. She poured cool water on the burnt area and rang her husband to come home. They took Devi to the District Hospital in Sindhuli, where she received only a dressing. Due to the lack of specialized burn care facilities, she was referred to Kirtipur Hospital, 85kms away on the same day. Due to the expense of the treatment, she wasn't admitted as an in-patient so each day her parents took her to have dressings changed. After 3 days, Devi developed a fever and was diagnosed with pneumonia. She was then taken by bus to Kanti Children's Hospital for further treatment. After three weeks she had recovered enough to be discharged home.

Sima is aged 10 and lives with her parents in the district of Siraha.

She was having fun flying a kite with her friends when the kite became lodged on the tin roof of a neighbour's house. Sima climbed onto the roof to retrieve the kite when she was electrocuted by a naked live wire and immediately became unconscious. People were nearby as it was on a busy road and they rushed to help her and informed the authorities who cut off the power. A relative then transported her on a motorbike to the District Hospital in Siraha, 30 minutes away. After being assessed she was referred by ambulance to the Birat Medical College in Morang 375kms from Kathmandu where she stayed for 12 days. Her family then brought her for specialised treatment to the burn's unit at the Kanti Children's Hospital in Kathmandu, involving a tortuous bus journey which took over 9 hours.

In March 2026, due to her head injuries, Sima was transferred to the nearby Teaching Hospital to continue her care. She sustained burn injuries to her head, face, and both feet. Despite the severity of her burns, incredibly, she remains active. She is the second child in the family, with an older sister and two younger brothers. She was studying in grade 6 before this tragic incident. Her mother and uncle are staying with her in hospital, while her father, burdened by huge financial strain, has reportedly lost hope in continuing her treatment.

To cover medical expenses, her family has already spent over NPR 100,000 (£590) which was raised through selling her mother's jewellery and their livestock. Her mother and uncle remain her primary caretakers and continue to ensure her recovery despite the ongoing financial challenges.

CHANCE funds £1,000 for emergency relief to be used where the financial burden of a member of the family staying with their child as no money to buy food or pay for medicines or travel back to their home. Sima was such a case.

EDUCATION

Shree Kalika School and Malika School

Two new schools funded by us and constructed by GMIN, our long-term partner on the ground in Nepal, were officially opened in February and April. The funding for them came at the end of 2024.

Our 9th school, Kalika in Ghatgaon, opened in February with 4 classrooms - offering up to 100 children an education from nursery to grade 4.

Our 10th school, Malika in Paisara, with 3 classrooms for 75 children, nursery to class 3 was opened in April, just in time for the new school year.
Both schools are in the district of Surkhet, 330kms West of Kathmandu

The £702 raised from our quiz night at The Bulls Head, in Ewhurst in January, funded the making of 100 school bags from recycled denim by physically challenged young adults at IBA Institute in Kathmandu which were given out to the children at the above schools.

Many children walk over an hour a day to reach school in hilly terrain, and the rucksacks make life much easier for them.

New Nepal Society Centre – NNSC

We are delighted to continue our support of this special place run by Kamal Bhattarai. There are 29 children aged from 5 – 17: 14 girls and 15 boys.

Currently, 7 attend college and 22 are at school. Once they leave college, they live outside the Centre. Three of the boys are supported through CHANCE and attend an excellent school near to the NNSC. During the year we funded 30% of the total food cost of the home, a new fridge, rice cooker and stainless-steel pots and pans.

A massive thank you to Valerie Lee who funded the greenhouse, which is bearing fruit and vegetables every month. The boys and girls, not afraid of hard work, helped to build the large construction and they all delight in seeing and tucking into kale, cauliflower, spinach, carrots as well as guavas, grapes, peaches and pomegranate, not forgetting their latest endeavour mushrooms!

Kamal's words below speak volumes of how he runs this small children's home. He is a star!

"A huge thank you to Chance for Nepal for their generous support in funding New Nepal Society Centre's greenhouse initiative. This project was made possible by the hard work of our children. After a month of effort, we can finally see the results. During the building process of this greenhouse, children had the chance to learn many new skills. They used plastics and bamboo to construct it, gaining patience and mindfulness along the way. In addition to these physical skills, they also learned to work together as a team for a common goal. This project has had a significant impact on their personal growth and development. We can grow many more vegetables, allowing the children to enjoy organic produce from their own garden.

With all your support, love, and trust, we are able to care for our children with dignity and hope. Every contribution, large or small, directly impacts their daily life, learning and future independence. We are sincerely thankful to all our supporters. Together we can continue building a safe, joyful, and brighter future for every child."

During October, we funded a mini holiday, a rare treat for the children, two nights and three days of fun laughter and fresh air, with a yoga and mindfulness instructor sharing her wisdom too.

A few of the older children returned to their village for the holiday period of Dashain and Tihar, their journey taking two days to reach their remote villages. It was a treasured time for them to meet extended family members and have a memorable two weeks with them as it may be 1 – 2 years before they make that journey again.

Wish List for the NNSC - 2026

- Birthday cake for 32 children
- An activity outing for 32 children – swimming/cinema/outing
- Mini break (4 nights / 5 days)
- Menstrual Dignity kit for 13 girls
- Washing machine
- House clothes for all children
- Football shoes for 14 boys
- Gas cylinder for 6 months
- Agricultural tools and seeds for our new greenhouse enterprise **-**
- Slippers for all children
- Colour printer (for children's projects and office use)
- Tournament and competition participation fee

In February 2026 after reading our Annual Review 2025, we received a most generous donation from a loyal supporter of CHANCE to fund the entire Wish List above.

Educational Sponsorships

We have 8 students with English sponsors:
3 students in school - Grades 9 and 10
2 students in college - Grade 11
3 students at university

Shree Secondary School, Chitwan

Dhruba Giri has monitored our Tiffin Programme at this school for over 12 years. He sent me the report below which so comprehensivly describes the importance of this beacon project that I wish to share it with you in its entirity. I'm sure you will find it interesting.

*'The **"Lunch at School" program** is implemented by **Chance for Nepal at Shree School, Chitrasari,** located in **Chitwan District.** Shree School is a government school that primarily serves students from **underprivileged and marginalized communities** where children face significant socio-economic challenges, including malnutrition and limited access to basic health and education services.*

*The Government of Nepal provides limited funding to support a school lunch programme up to **Grade 5.** However, this funding is **insufficient to provide a healthy and nutritious meal** for students. To address this gap, **Chance for Nepal adds to the government funding for early childhood to grade 5** and provides **full financial support for students in Grades 6 to 10**, ensuring that all students receive proper meals.*

*Through this support, the **350 students** are receiving **nutritious meals every school day**. In addition, the youngest children are provided with **a glass of milk and a piece of fruit each morning** when they arrive at school.*

*Shree School is the **only school in Chitwan District** where the lunch program is implemented for **all students from early childhood to Grade 10**. The program aims to improve children's health, promote a peaceful learning environment, and increase school attendance. This is especially important because **early childhood to late childhood (ages 3–13)** is a critical period for **physical and brain development**. Lack of proper nutrition can negatively affect learning capacity, energy levels, and overall development.*

*The program has resulted in **significant positive changes**. School attendance has increased, and the dropout rate has decreased noticeably. Teachers report that students are **more attentive, motivated, and actively engaged in classroom activities**, which has contributed to improved academic performance. The regular provision of nutritious meals has also contributed to **better health outcomes and reduced risk of malnutrition** among students.*

*Overall, the **Lunch Support Program** plays a vital role in enhancing **student attendance, academic performance, and overall well-being**, ensuring that children can focus on learning without the burden of hunger.*

Acknowledgement:

We are deeply thankful for the continued support of CHANCE and look forward to further strengthening this valuable partnership.'

YANGCHENMA ACADEMY – RAMACHHAP

We have been supporting the Yangchenma Academy School since 2020. Bimila Ghising, the founder and her excellent team of teachers are giving the very best in education, run on Buddhist lines. The school lies at 3400 metres above sea level in the district of Ramechhap, which is 5 hours by road from Kathmandu and is the only school in the community.

There are 85 students in total, 48 girls and 37 boys. 19 students receive a scholarship for their fees. Many children walk up to 3-4 hours daily for this unique education which is provided fully or partially free to those who are economically disadvantaged.

This year CHANCE funded a teacher's salary thanks to the Brampton Charitable Trust. We also funded 2 computers and teaching aids.

For those children who have too far to travel in the hilly terrain, the school rents a hostel close by. It has been Bimala's dream to build their own hostel on site, thereby saving the considerable rent which would free up funds to support more children which would be good for Yangchenma's future. The cost would be in the region of £20,000

In Febr*uary 2026, after reading our Annual Review of 2025, we were thrilled to receive a fantastic donation of £20,000 from a wonderful supporter to build this much needed hostel on the school site. This is truly a life changer for Yangchenma Academy and during 2026 will come to fruition enabling more children the gift of an education.*

Sneha's Care

July marked another meaningful step toward building a rabies-free community as part of our ongoing Anti-Rabies Vaccination (ARV) program in Lalitpur.

Their efforts are not just about preventing rabies, they are about promoting compassion, public health awareness and harmony between us and animals. Every vaccinated dog represents a life protected and a community made safer.

We fund 1,000 anti-rabies vaccinations every year with this outstanding centre. Our partnership makes it possible for them to reach more areas, help more animals, and move closer to a future free from rabies.

In the coming months, Sneha's Care is building a new centre in a different location after neighbourhood complaints about dogs barking. You can contact Sneha's Care and find out more - https://snehacare.com

Thank you

There are times when I am completely overwhelmed and humbled by the extra-ordinary and wonderful generosity of CHANCE FOR NEPAL supporters. As noted above, within hours of sending out the Annual Review for 2025 the funds for the entire Wish List that I had set out were sitting in the CHANCE bank account. I can only say THANK YOU from the bottom of my heart.

Financial review

During the year the charity received income totalling £81,045 (2025: £67,667). The level of donations fluctuates due to the size of individual donations and the nature of fund-raising efforts during the year. The charity incurred expenses totalling £4,351 (2025: £8,092) and donated £64,975 (2025: £67,801) to various projects in Nepal resulting in a net surplus for the year of £11,719 (2025: deficit: £8,226).

The charity had assets totalling £36,434 (2025: £24,715) at 31 March 2026 including restricted funds of £3,649 (2025: £4,089).

Reserve Policy

At 31 March 2026 the charity had total unrestricted funds of £32,785 (2025: £20,626). The charity relies on donations, fundraising and sponsorship to meet the costs of its charitable work in Nepal and its small administrative costs.

Occasionally donations are received from persons wishing the entire amount to be spent on a particular project, such amounts are credited to restricted funds which at 31 March 2026 the balance of the unspent funds totalled £3,649 (2025: £4,089).

Going Concern

CHANCE for Nepal has a considerable number of individual and corporate supporters, some contributing to specific projects/objectives and others more generally. New supporters are introducing themselves to CHANCE each year, thereby maintaining a reliable source of donated funds. The overarching philosophy of the charity, however, is only to spend money that has already been raised – it does not take on unfunded commitments. The charity seeks to maintain, in cash that is retained in the UK, around one year's worth of expenditure so that the projects that are being supported in Nepal can be confident that support will continue for at least the next year. Overheads and running costs are small.

The combination of the charity's philosophy and the lack of substantial overheads mean that the forecast for the next 12 months is that it will maintain a good financial position.

Structure, Governance and Management

Constitution

The Charity is an unincorporated entity, governed by a Trust Deed dated 13 March 2007. It was registered as a charity on 5 April 2007, registered charity number 1118708.

Trustees

The Declaration of Trust provides for a Board of Trustees which consists of all the Trustees. The following Trustees have served during the period to date:

Mrs Barbara Datson
Mr Roger Nash
Mr David Smail
Mr Christopher Blizard

No trustee had any contract or arrangement of a material nature with the charity during the year under review.

Recruitment and Appointment of Trustees

The Declaration of Trust provides for a Board of Trustees which shall be at least three trustees. Every future Trustee shall be appointed for a term of three years by a resolution of the Trustees passed at a meeting arranged or called under clause 9. If a trustee is to replace a Trustee who is leaving office he or she may be appointed not more than three months before the other Trustee leaves office but shall not take office until the other Trustee has left.

In selecting persons to be appointed as Trustees, the Trustees shall take into account the benefits of appointing a person who through residence, occupation, employment or otherwise has special knowledge of the area of benefit or who is otherwise able, by virtue of his or her personal qualifications, to make a contribution to the pursuit of the Objects or the management of the charity.

Statement of Trustees' Responsibilities

The Trustees are responsible for preparing the Report of the Trustees and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales requires the Trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Charity and of the incoming resources and application of resources of the Charity for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP 2015 (FRS 102);
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Charity will continue to operate.

The Trustees are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations and the provisions of the Trust Deed. They are also responsible for safeguarding the assets of the Charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

This report was approved by the Trustees and signed on their behalf on 6 August 2026

Mrs Barbara Datson
Founder and Trustee

CHANCE FOR NEPAL

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF CHANCE FOR NEPAL

I report to the trustees on my examination of the accounts of the CHANCE for Nepal for the year ended 31 March 2026, set out on pages 16 to 20.

Respective responsibilities of trustees and examiner

As the charity trustees of the Trust you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the Trust as required by section 130 of the Act; or

2. the accounts do not accord with those records.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.
