Word from the Directors

In 2025, we had all our projects back up and running and added HELP Maths which has rapidly become one of our most successful projects, helping the kids improve their maths. We continued to develop our partnership with the US NGO Global Catalyst in Huanchaco. With a focus on girl empowerment, literacy, entrepreneurship, health, and sex education, we served over 120 girls in 4 community groups through recurring and special events.

We ran our HELP Swim programme with our partners Swim Tayka. Starting in January, almost 100 kids from Huanchacho and the surrounding areas enrolled in these swimming lessons and drowning prevention programme.

We expanded our partnerships with universities, both in recruiting volunteers, and in offering collaborations in research for example we again hosted a small group of Masters students from Sheffield University for in-person Fieldwork Research.

In 2025, we saw some staff change as previous managers left us and new team members joined us. Thanks to Marie & Will who left us in 2025, Ana & Giulio who joined us temporarily and Antoine who joined then became our Senior Manager..

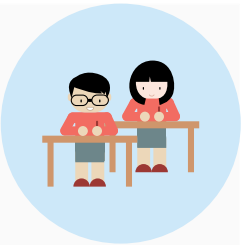

Our financial situation improved significantly, with a large group of short-term volunteers from a U.S. school boosting our income. We made a worthwhile surplus for the full year, increasing our unrestricted reserves at end 2025 to back above our target levels.

We would like to thank all our staff, teachers, volunteers, donors, trustees and partners without whom none of Otra Cosa's good work would be possible. Looking forward to working with all these to further help our beneficiaries in 2026.

Peter & Juany Murphy,
Co-Directors
Otra Cosa Network

HELP Projects

HUANCHACO EDUCATION AND LEARNING PROGRAMMES

Huanchaco Education and Learning Programme (HELP) is dedicated to advancing the education possibilities and resources for lower-income children and adults in Huanchaco and the surrounding areas. Otra Cosa Network has been running four projects for the past years, all part of HELP projects, but this year, we are proud to introduce a new project: HELP Maths! The other ones: HELP English, HELP Environment, HELP Literacy, HELP Youth – remained active and purposeful all along the year.

On top of that, Otra Cosa Network has been able to provide swimming classes to 100 children during the summer, under the HELP Swim project, presented in a subsequent section of this report. HELP Women operated for part of the year, offering more localised assistance to the mothers in the community and is planned to develop further next year.

The following pages document the achievements and challenges within the projects during the year 2025.

HELP ENGLISH

HELP ENVIRONMENT

HELP LITERACY

HELP WOMEN

HELP YOUTH

HELP MATHS

HELP English

PROVIDING EQUAL EDUCATION OPPORTUNITIES THROUGH ACCESS TO ENGLISH CLASSES

This year again, HELP English remains our flagship programme, most popular for the volunteers coming to teach and also in terms of number of beneficiaries. HELP English is not only taught at the REC (Recreational & Educational Centre), but also at Maria del Socorro, the local state school., and in the local library for Adult English classes.

At the REC, the children, divided into two groups according to age, have learnt lots of new vocabulary and improved their grammar skills, motivated by the opportunity to learn from and interact with native speakers. We have moved back from our monthly tests, feeling that some children were rather scared of exams, so we have kept it light and fun, to be as inclusive as possible, and left the evaluation to a more qualitative method.

At Maria del Socorro, we are happy to announce that we have been able to teach English to 300 children, without interruption, due to a higher number of volunteers involved in this programme. A big thanks to the team, who helped us provide high-quality, compulsory English language courses as part of their school timetable.

HELP Environment

TEACHING CHILDREN ABOUT LOCAL SOLUTIONS TO GLOBAL ENVIRONMENTAL ISSUES

This year, we successfully conducted a series of interactive workshops across diverse disciplines, from making compost and exploring Peru's rich marine life to crafting plant pots and bird feeders. These sessions not only educate but also instill a sense of responsibility and creativity in our participants.

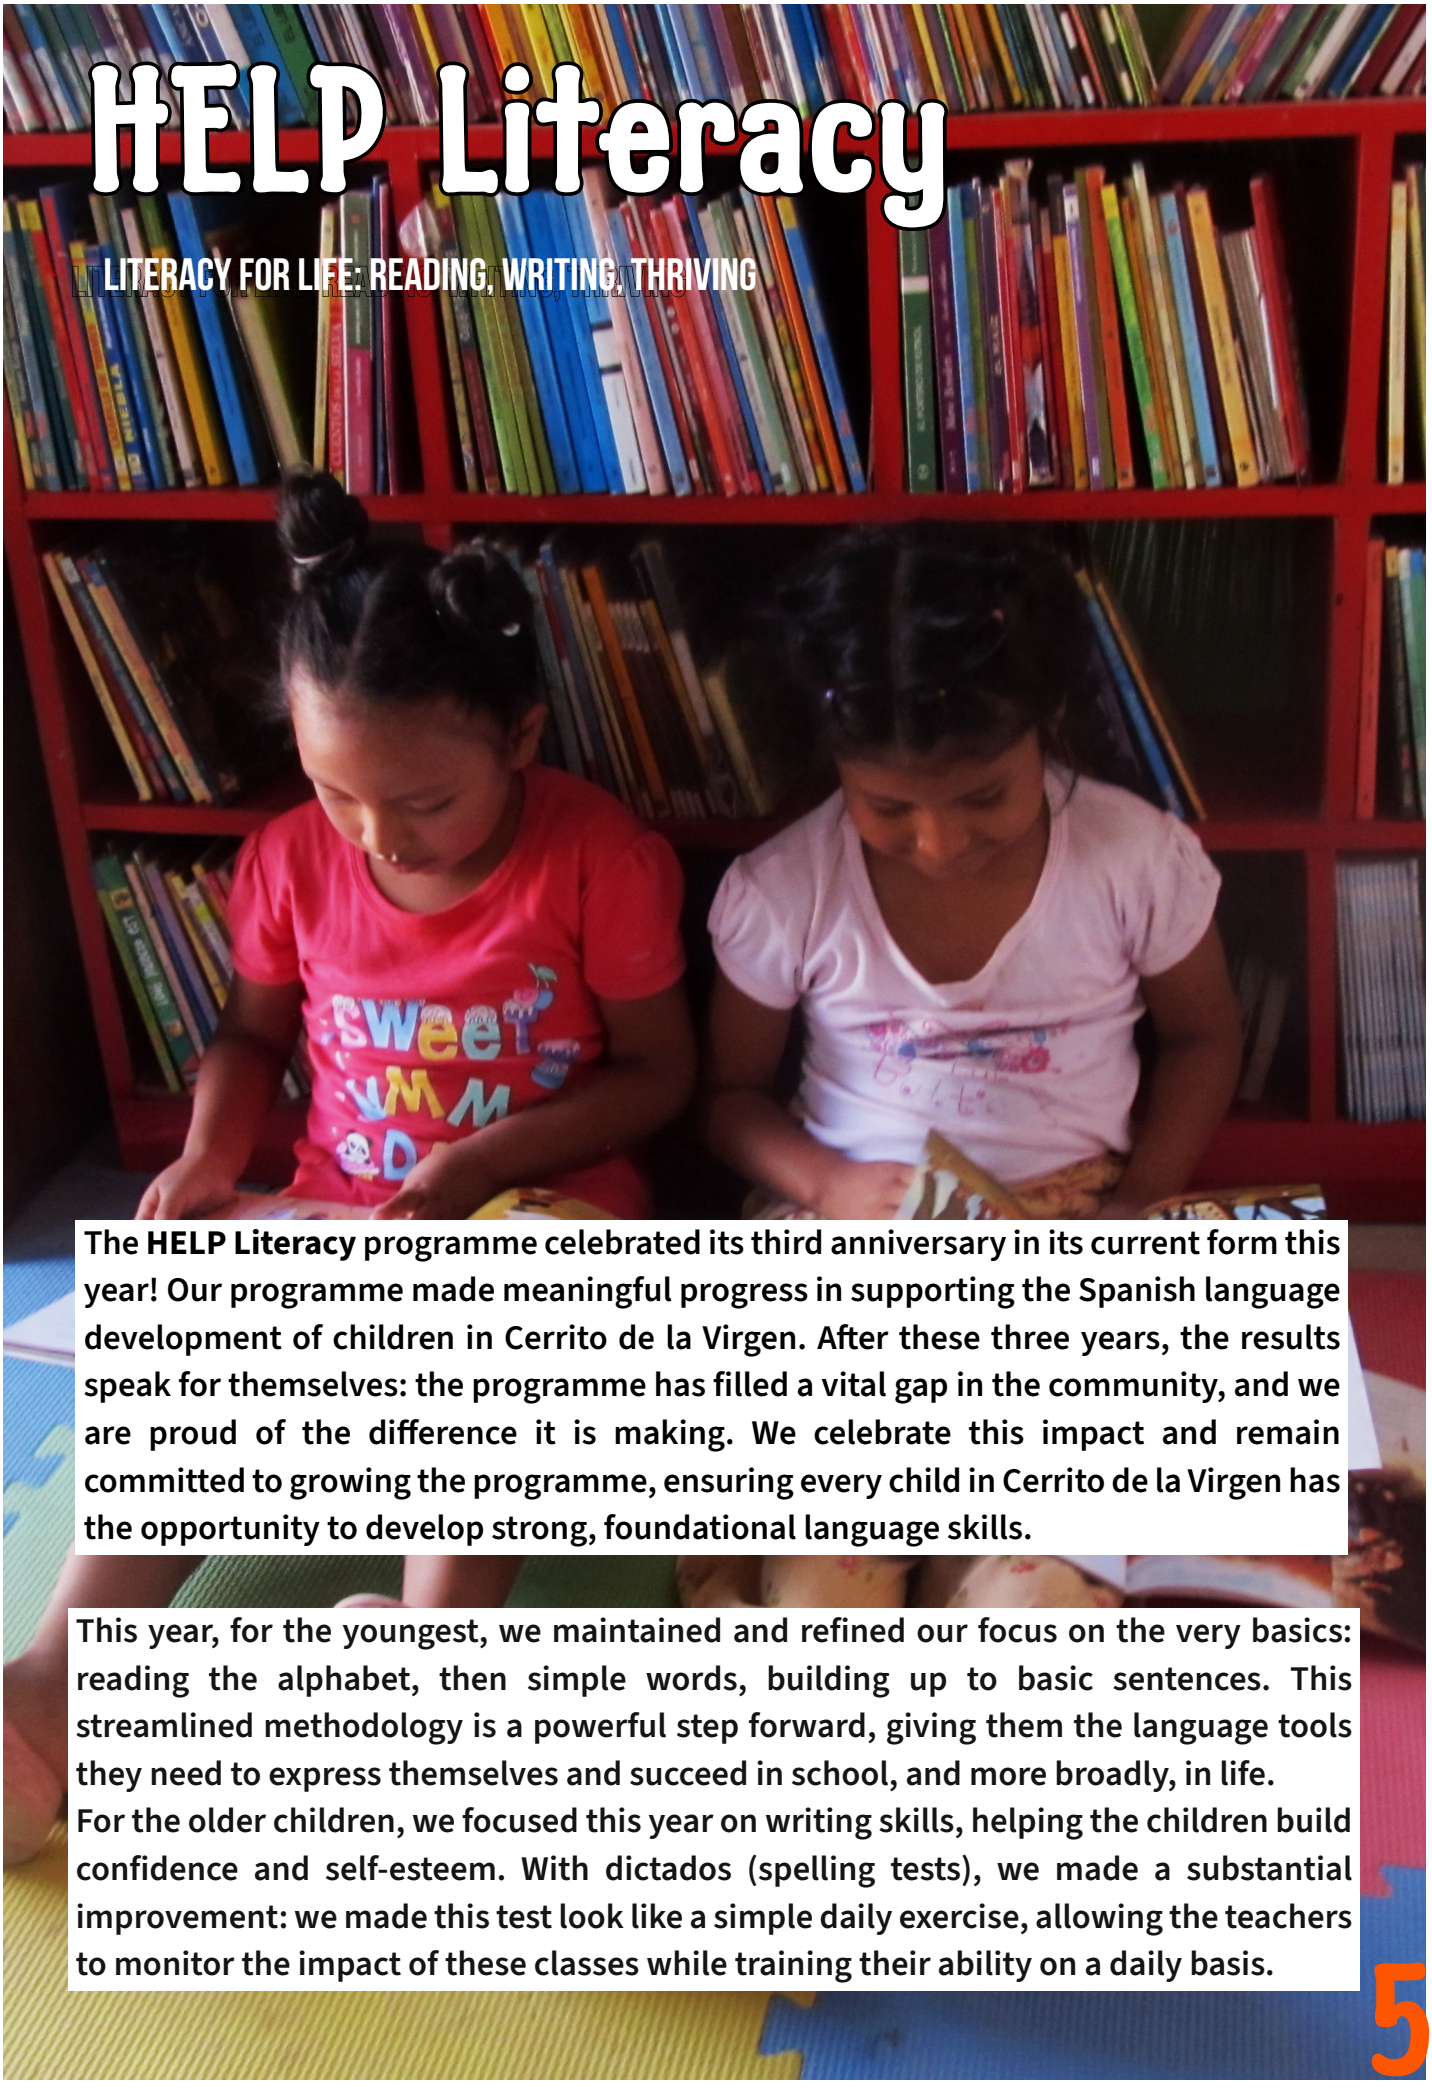

Our dedication to sustainability and community care remains unwavering. We organised a successful beach clean in February and two litter-picking events around Cerrito in May and July, reinforcing our pledge to protect local ecosystems. Moving forward, we aim to ensure that beach cleans and litter-picking events occur on alternate months, maintaining momentum and community involvement.

Our garden space at the REC remains a cornerstone of our activities. Thoughtfully maintained and augmented throughout the year, it embodies our hands-on approach to environmental education: a place where participants of all ages learn by doing, develop sustainable skills, and witness the direct impact of their efforts. More than just a green space, it represents our commitment to blending education with environmental and cultural preservation.

HELP Literacy

LITERACY FOR LIFE: READING, WRITING, THRIVING

The **HELP Literacy** programme celebrated its third anniversary in its current form this year! Our programme made meaningful progress in supporting the Spanish language development of children in Cerrito de la Virgen. After these three years, the results speak for themselves: the programme has filled a vital gap in the community, and we are proud of the difference it is making. We celebrate this impact and remain committed to growing the programme, ensuring every child in Cerrito de la Virgen has the opportunity to develop strong, foundational language skills.

This year, for the youngest, we maintained and refined our focus on the very basics: reading the alphabet, then simple words, building up to basic sentences. This streamlined methodology is a powerful step forward, giving them the language tools they need to express themselves and succeed in school, and more broadly, in life.

For the older children, we focused this year on writing skills, helping the children build confidence and self-esteem. With dictados (spelling tests), we made a substantial improvement: we made this test look like a simple daily exercise, allowing the teachers to monitor the impact of these classes while training their ability on a daily basis.

HELP Youth

HELP YOUTH: A SPACE TO GROW, CREATE, AND EXCEL

In 2025, our HELP Youth project remained a vibrant hub for the children of Cerrito de la Virgen, offering a dynamic mix of learning, play, and creativity. At the REC, supervised activities and games continued to provide a safe, inclusive space where children could explore, develop skills, and build friendships.

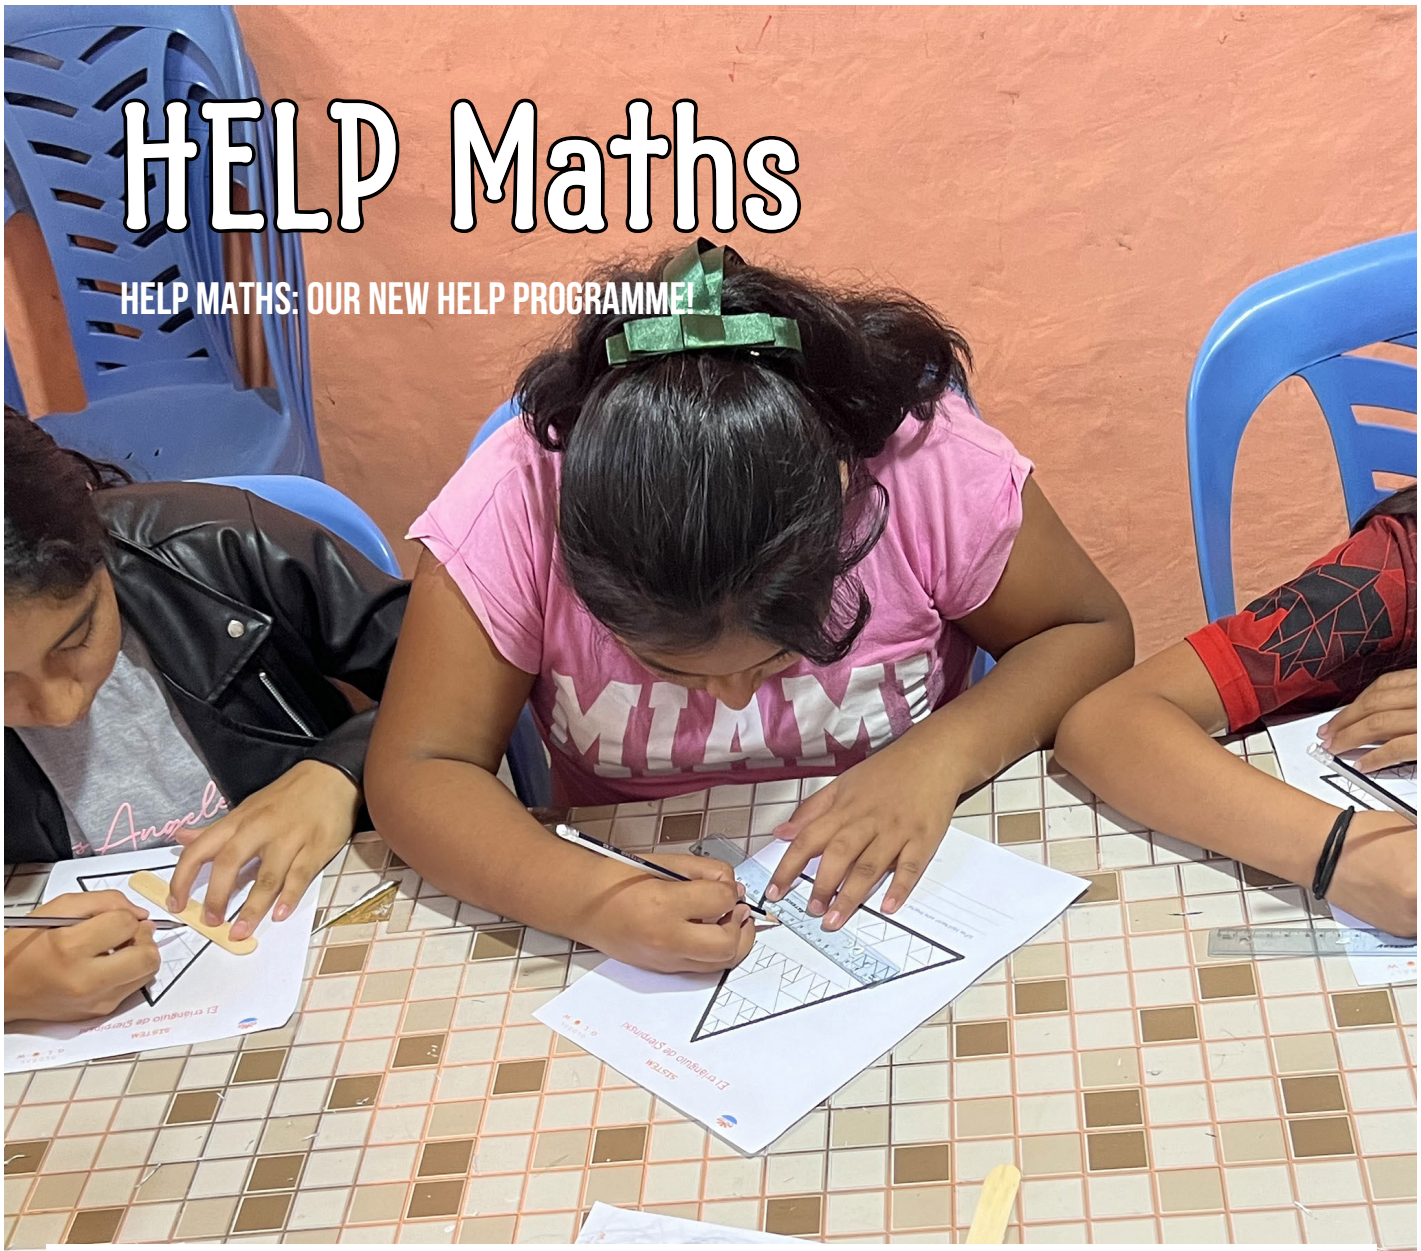

HELP Youth encompassed this year the great project of holding each month an Evento de Fin de Mes, to celebrate the month together and ensure their participation in our activities. Each event worked around a selected theme and proposed challenges, quizzes and games where children would use the skills they had learned during regular classes. By winning these games, they also won some sweets and drinks, adding to the fun of the celebration.

The programme thrived on diversity, integrating homework support, sports, science, music, and arts and crafts into daily life. Guest teachers once again brought fresh perspectives, inspiring curiosity and introducing children to new passions. Our skate ramp, a perennial favorite, stayed as popular as ever; with kids growing more skilled every day, some even discovering a potential lifelong passion.

HELP Maths

HELP MATHS: OUR NEW HELP PROGRAMME!

And now comes the time to introduce our new HELP project! HELP Maths was born because of a clear gap we saw in the community, and thanks to our lovely volunteers, we were able to fill it quite naturally. More than just filling it, we have even made it a very successful programme right from year one: while measuring the amount of homework we helped our beneficiaries with, mathematics came first, and by fa long way!

This programme has been enjoying the presence of long term volunteers, that for 9 months have been working with classes with very high disparities. They have also made sure that their curriculum followed the pace of the state schools, so it could function more as a reinforcement of their school education, rather than two distinct programmes. Nonetheless, the team have been creative in adapting the exercise to our beneficiaries, making the classes fun, interesting and interactive.

HELP Women

PROMOTING WOMEN'S EMPOWERMENT IN HUANCHACO

Project Coordination

Our coordinators for the second half of the year were Noah and África. They successfully led a group of women from the community. The group consisted of 12 mothers with children who have special needs, creating a supportive and welcoming space where these mothers could meet, share experiences, and learn from one another. Their dedication, patience, and care helped build trust within the group and strengthened the sense of community among its members.

Future Plans and Goals

Looking ahead, we aim to broaden our reach and deepen our impact. Our first goal is to seek out new target audiences, such as the community of Cerrito de la Virgen, so that more families can benefit from our work and have access to the support and opportunities we offer.

We also plan to prepare an entrepreneurial space for the mothers in the project. As an example, we organise their participation in selling at the Chan Chan museum, alongside our volunteers, once a month. This initiative would give the mothers an opportunity to showcase their skills, generate income, and gain confidence, while also fostering collaboration between our participants and volunteers.

HELP Women
Latinas in Warwickshire

LATINAS IN WARWICKSHIRE: SUPPORTING WELLBEING AND COMMUNITY CONNECTIONS IN 2025

Throughout 2025, Latinas in Warwickshire continued to provide opportunities for women to improve their wellbeing, build friendships and strengthen their connections with the local community.

Approximately 80 women participated in the organisation's different activities during the year, although attendance varied depending on the activity and individual availability. Two ongoing initiatives were yoga classes at Warwick School of Dance and work in the community allotment at St Charles Borromeo Roman Catholic Church.

The yoga classes provide women with an opportunity to focus on their physical wellbeing while enjoying time together in a friendly and supportive environment. As well as encouraging regular physical activity, the sessions help participants build friendships and maintain social connections.

The community allotment continued to offer opportunities for gardening, outdoor activity and collaboration. Working together in the allotment allows participants to share knowledge, develop practical skills and enjoy time outdoors while contributing to a shared project.

Through its activities and wider community outreach, Latinas in Warwickshire reached approximately 170 families. This work contributes to building stronger community relationships, promoting inclusion and creating opportunities for Latin American women and their families to feel more connected to life in Warwickshire.

By maintaining accessible activities and welcoming spaces, Latinas in Warwickshire continues to support women's wellbeing and encourage social participation. The organisation's work demonstrates the value of community-led initiatives in helping women build relationships, share experiences and support one another.

Looking ahead, Latinas in Warwickshire will continue to strengthen its activities and community partnerships, responding to the needs and interests of its members and the wider community.

Global Catalyst

EQUIPPING GIRLS TO BE STRONG, HEALTHY, AND EDUCATED

An NGO based in the United States, Global Catalyst partners with NGOs around the world to develop and implement programmes designed to equip girls with the resources to be strong, healthy and educated. GLOW activities throughout the year focus on different aspects of healthy development, giving girls opportunities to become leaders.

This year, our clubs benefited from the support of a volunteer psychologist, who accompanied the girls and mentors and contributed an important layer of emotional and personal guidance to our sessions.

We also marked several key moments throughout the year with our community:

- **6th June:** Celebration of Menstrual Hygiene day at a local school, where we promoted open conversation, education, and dignity around menstrual health.
- **11th September:** International Day of the Girl summit, a gathering to celebrate girls, amplify their voices, and reflect on the rights and opportunities they deserve.
- **20th December:** Christmas Summit, a closing celebration to share the joy of the season with our girls, mentors, and families.

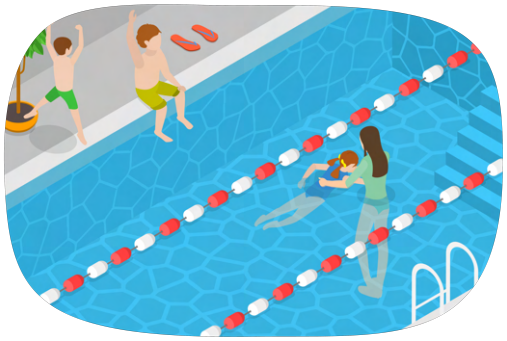

In 2025, Global Catalyst strengthened its foundations through a robust reporting system. Our reports now include photos as evidence of the work carried out, a new attendance tracking system that lets us follow each participant's involvement more accurately, and receipts that document our expenses with full transparency. Together, these tools have made our work easier to monitor, verify, and share with our partners.

We also remained actively engaged with advocacy initiatives. We consistently responded to and took part in the initiatives shared with us, and this year we saw greater participation from our community. We now have one hundred and twenty girls enrolled in our four programmes in Cerrito de la Virgen, Las Camelias, Las Lomas and San Carlos, our dedicated six mentors, and we hold meetings with local families who join events such as beach cleanups, community walks, and forums, turning advocacy into a shared, visible effort in Huanchaco. We are pleased to share that Global Catalyst has given us an approved budget for 2026, which gives us a solid base to continue growing our impact!

Partner Projects

WE WORK CLOSELY WITH OUR PARTNERS IN AND AROUND HUANCHACO

HELP Swim, supported by Swim Tayka & Princess Charlene of Monaco foundation

Our classic 8-week summer programme took place once again, this time in Las Lomas. Funded by Swim Tayka, it reached over 100 children, with the funding covering pool rental, class coordinators and teacher payments, swimming materials and support for volunteers and students.

Classes combined swimming and drowning-prevention lessons with environmental education, each session opening with a presentation on a certain environmental topic. Practical swimming sessions were assessed throughout the programme against agreed criteria, with teachers recording progress after each session, including strengths, areas for improvement, suggestions, and attendance.

The programme was a great success, enabling beneficiaries to move safely in and around water. It brought greater safety to our coastal area while giving the children a sport they now genuinely enjoy.

Teamwork

OUR STAFF AND VOLUNTEERS MAKE ALL THE DIFFERENCE

Staff

We'd like to thank Marie Besson-Damegon, Project Manager and Will Nickel, Country Manager, who left us in 2025, for all their hard work and dedication to Otra Cosa Network. We truly wish them all the best for the future.

Ana Lopez

We were very happy to call our most experienced manager back again, to accomplish the transition up until early January. Ana thus came for the third time, and as always, took good care of our projects, our volunteers, and overall, our organisation. We are grateful that she came to help us while being a candidate for a Master's degree adding to the difficulty of an already heavy workload.

Antoine Piot

Antoine came first as a Fundraising Coordinator in June 2025, and offered his services as a manager as soon as Will resigned. Trained by his predecessor, he became part of the staff quite naturally and was very happy to transform his internship into a managerial position.
Antoine has had several managerial positions before, with a very diverse background, from photography to snowmaking, via escape games. He was also involved in a Master's degree – this time in International Relations – with a knack for political sciences.

Giulio Guarneri

Giulio joined us in late August until late November. We recognise the value of his work and thank him for his added value, his creativity and dedication. We wish him the best of luck for the future.

Board of Trustees

Otra Cosa Network is fortunate to have a committed Board of Trustees: Peter Reynolds, Tess O-teg, Carlos Antonio Ferrer and Elizabeth Loyola, who bring different experiences and skills to support the organisation's work.

Peter Reynolds, Senior Legal Counsel at EY, was one of OCN's first volunteers in Huanchaco, Peru. He continues to dedicate his time to the organisation, sharing his professional experience and supporting its development. Tess O-teg has been involved with OCN for the past 13 years, demonstrating a long-standing commitment to the organisation and its work with the local community.

Carlos Antonio Ferrer, who is based in Huanchaco, also working with us for the last 12 years, provides valuable advice and ongoing support to the team in Peru and is actively involved in recruitment, helping the organisation identify suitable people to contribute to its programmes.

Elizabeth Loyola brings her legal expertise to the Board, advising and supporting OCN on legal matters when needed. The trustees meet quarterly to discuss the organisation's progress, address challenges and consider future priorities. Their combined knowledge, practical support and continued commitment help Otra Cosa Network deliver its programmes in youth development, English learning, environmental awareness and women's empowerment. We are grateful to each of them for the time and expertise they contribute, helping OCN continue its work with children, young people, women and families in Huanchaco.

Volunteer Partners

This year, we are thrilled to announce the beginning of new partnerships with volunteer agencies. From France, we received five volunteers from the state agency France Volontaires for 9 months. Most already knew some Spanish, and the length of their placements made them valuable team members. We are very grateful for this opportunity and look forward to the next ones.

From Germany, we were also thrilled to receive four volunteers from the NGO KulturLife, over the course of one full year. KulturLifehas been an extraordinary partner to Otra Cosa Network; together we hosted four volunteers, including Leander, Antonia, Hannah and Ida, who joined our team in August 2025 to August 2026. They became part of daily life in Huanchaco. Although they did not speak Spanish at first, they were able to learn very quickly. When they arrived, they proved remarkably resourceful: they found creative ways to communicate, learned from those around them, and built real connections with our community. What began as a learning curve became genuine leadership. Together, the volunteers took part in all four of Otra Cosa Network's projects: Help English at Maria del Socorro School, Help Literacy, Help Environment, and Help Youth. Each one brought their own energy, skills, and perspective to a different side of our work. Wherever they were placed, they approached their responsibilities with commitment, warmth, and initiative. We are grateful for the year we shared and look forward to the one ahead with KulturLife and our volunteers at our side.

Recruitment

During the year, we liaised with, coordinated, and delivered the trip for the American group of 23 students and 3 teachers, who made a substantial contribution to our work. We also recruited 42 volunteers and researchers from around the world including 3 volunteers from Canada, 2 MA researchers from Sheffield, 4 German volunteers for a year-long programme, 4 Americans from the Gesisler foundation, and 29 individual volunteers who joined us from different countries around the globe.

Between 1 January and 31 May 2025, we had a very busy period welcoming a total of 55 volunteers: 29 individual volunteers and a group of 26. Arrivals were spread across the period, with 8 in January, 9 in February and 3 in March. April was our busiest month, with 26 arrivals, when the group joined us, then a further 9 volunteers in May.

The rest of the year was less busy but thankfully with a steady flow of volunteers and therefore volunteer donations which enabled us to fully support our projects with volunteers and cover our project costs.

International Relations

We continue welcoming MA student researchers from Sheffield University. This year we welcomed two researchers doing their dissertations on RESEARCH PROPOSAL: EVALUATING THE EFFECTIVENESS OF GIRLS' EMPOWERMENT PROGRAMMES IN PERU and the analysis of OCN's HELP English program, which seeks to address social inequality by providing students in local state schools with English language classes.

This year we also had the pleasure of welcoming Student Service Travel, with 23 students and three teachers joining us in Huanchaco. They had a busy schedule during their week with us: volunteering at our projects, teaching English at María del Socorro, and participating in many planned cultural activities. Their visit brought fresh energy and curiosity to our community, and gave our team and participants the chance to exchange experiences, learn from one another, and build connections across cultures. We are deeply grateful to Student Service Travel and every volunteer and student who contributed to this year, and we look forward to the future with their continued involvement.

Fundraising, Donations & Grants

We'd like to acknowledge and thank everyone for all donations and grants big and small given in 2025. In total we received £20,583 in grants and £7,005 through fundraising campaigns and other donations.

We want to particularly thank Global Catalyst for their £18,407 grant which supports our GLOW classes for girls throughout the year and the Amanda Geissler foundation for a generous donation of US$5,000 to support continuing and developing the work Amanda did at our REC.

We also want to say a huge thank you for grants from Swim Tayka to support the HELP Swim programme, Groundwork (Tesco) to help the Latinas in Warwickshire programme.

Our volunteers also raised a total of £674 to help local projects through cake & book sales at Chan Chan, a pub quiz night and fundraising volunteer lunches. A lot of work went in but it was also good fun & team building all for local good causes.

We also received valuable donations in kind including new chairs for our REC from AMFFAS, helmets & knee protectors for the ramp from volunteer Sally and a new bike for travelling to the REC from volunteer Kirsty.

Thanks to all for their generous donations without which OCN could not carry out its good work.

Further Partnerships

Partnership with KulturLife

This year, Otra Cosa Network took an important step by formalizing our relationship with KulturLife from Germany. Through close communication and coordination, our teams aligned expectations, defined roles, and ensured volunteers were well supported from their arrival in Huanchaco. After a thoughtful liaison process, we signed a partnership agreement with KulturLife, creating a clear and lasting framework for hosting their volunteers. This agreement reflects the trust we have built and our shared commitment to meaningful volunteering, cultural exchange, and community impact. We are proud of this milestone and look forward to growing the partnership in the years ahead.

Hosting volunteers for a full year through our partnership with KulturLife has transformed the way Otra Cosa Network works. With time to learn the language and understand the community, our KulturLife volunteers built deep, trusting relationships with the children, teachers, and families we serve. Their continuity gave our programmes stability, and they moved from supporting activities to leading them across all four of our ongoing HELP projects. They also guided newer volunteers and visiting groups, passing on knowledge that would otherwise potentially be lost with each new volunteer departure/arrival.

Amanda Geissler's Family and the Transformation of Our Centre

This year, Otra Cosa Network had the honour of welcoming Amanda Geissler's family, whose generous donations have made a lasting difference to our work here. They placed great trust in us and we worked hard to make the most of it. Their contribution transformed our Centre into a brighter, safer, and more welcoming space for our girls, teachers, volunteers and community. We painted the walls, plastered the Skate Ramp and decorated the library. Every improvement reflects the care and generosity behind it, and we are deeply grateful to the family for believing in our mission. In Amanda's honour, we hold a Memorial Day for Amanda every January 1st. It is a moment for our team and community to remember her, to celebrate her legacy, and to reflect on how her memory continues to inspire our work in Huanchaco.

Visit of the US Global Catalyst Delegation

In September, Otra Cosa Network had the pleasure of welcoming a delegation from Global Catalyst in the United States to Huanchaco. The visit gave our partners the chance to see our work first-hand, meet the girls in the Glow Clubs, mentors, and volunteers, and experience the community where our programs take place. Spending time together allowed us to share our achievements and challenges openly, and strengthened the bond between our teams across countries. For our girls and mentors, it was a meaningful opportunity to connect with the wider Global Catalyst network and to feel part of something larger than their own club. We are grateful to the delegation for their time, their support, and their commitment to the girls we serve, and we look forward to continuing this collaboration.

Finances

FACTS & FIGURES

Finances

FINANCIAL COMMENTARY

These 2025 accounts have been prepared using the UK Charity Commission's Receipts and Payments accounting conventions, so OCN funds received and payments made between 1st January 2025 and 31st December 2025 are included.

Income

Total receipts were £87,748 in 2025, up by £9,162 against 2024. Volunteer payments and housing income together were up by over £21,000 on 2024 at £44,823 primarily due to a U.S. school group visit. However, partially offsetting this Grant income was substantially down by £8,804 to £20,583 as some one-off grants came to an end. Donations & fundraising income together was £4,734 down on 2024, but Group travel income and other income was up by £1,356.

Expenditure

Total expenditure grew by around 5% to £ 79,735 in 2025. Project expense was up by £ 1,847 despite the reduction in 2025 grant funds received above as some projects were funded by prior year grants.
Housing / Accommodation & food expenses were up by £8,306 against 2024, mainly due to the U.S. school group but this was more than offset by the increased income above.
Group travel expenses were significant at £4,112 but this was more than covered by the Group travel income above. Salaries & benefits reduced by £1,507, with the Peru management team restricted to 2 full time people.
Overall, the increase in total expenditure of £ 3,717 was more than offset by the £ 9,162 increase in total income above enabling us to stay cash positive and improve significantly on 2024's small net surplus.

Net cash surplus and reserves

In 2025, we made an overall cash surplus of £ 8,013 compared with £2,568 in 2024. On unrestricted funds we made a substantial net surplus of £8,210 to help boost our General Reserves.
We ended the year with £16,003 in General Reserves (unrestricted funds). Compared with our underlying Unrestricted spend of £49,151 (excluding Group Travel expenses) this gives us 3.9 months cover, against our General Reserves target of a minimum of 3 months cover. This is considered sufficient to allow for any short-term financial issues, but we do need to continue to control costs to cover any potential downturn.

CHARITY COMMISSION FOR ENGLAND AND WALES

Independent examiner's report on the accounts

Section A Independent Examiner's Report

Report to the trustees/ members of	Otra Cosa Network		
On accounts for the year ended	31st December 2025	**Charity no (if any)**	1133680
Set out on pages			

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended 31/12/2025

Responsibilities and basis of report

As the charity's trustees, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

[The charity's gross income exceeded £250,000 and I am qualified to undertake the examination by being a qualified member of [insert name of applicable listed body]]. *Delete [ ] if not applicable.*

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination (other than that disclosed below *) which gives me cause to believe that in, any material respect:

- the accounting records were not kept in accordance with section 130 of the Charities Act; or
- the accounts did not accord with the accounting records; or
- the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

** Please delete the words in the brackets if they do not apply.*
