Carers Worldwide

The Report of the Trustee-Directors of Carers Worldwide for the year ending December 2025

Structure, governance and management

Carers Worldwide's governance is described in its Memorandum and Articles of Association. The policy and strategic decisions of Carers Worldwide rest with the Trustee-Directors who meet three times a year to oversee, plan and monitor its activities. Two committees – Finance and Risk, and Fundraising and Marketing - comprising Trustees and staff meet before each Trustee Board meeting to consider progress towards annual plans and recommend future actions. The current Board of Trustee-Directors is shown on page eight. Potential candidates for the Board are considered by the existing Trustee-Directors on the basis of how their skills and experience match the organisation's needs. The Board of Trustee-Directors delegates the day to day running of the charity to the Founder and Executive Director, Anil Patil who is responsible for the implementation of the organisation's strategy and its programmes: currently in India, Nepal and Bangladesh, and expanding into Pakistan and East Africa in the near future; partnership development; financial accountability; marketing; quality assurance; policy and new programmes. The Development Director, Ruth Patil, works closely with the Executive Director to actively support the day to day operations of the charity, particularly partnership development, fundraising, HR, compliance and implementation of its strategy. The Trustee-Directors approve policies, the strategic plan of Carers Worldwide, annual plan and budget, and financial contracts as set out in the delegated authority. Amongst the Trustee-Directors, responsibility for oversight during the year was assigned as follows: Chair of Trustees – Jonathan Freeman; Treasurer and Chair of Finance and Risk Committee – Dhanya Vamadevan; and Chair of Fundraising and Marketing Committee – Maria Andrews. The Trustee-Directors meet regularly with Anil Patil and other staff members to ensure strategic objectives are met and statutory and donor compliance is maintained. The Chair of the Trustee-Directors, Jonathan Freeman, oversees the activities of the Trustee-Directors and the Executive Director. He is responsible for conducting the Executive Director's performance management process.

Objectives and activities

Carers Worldwide's objects, as defined in its Memorandum and Articles of Association incorporated 25th May 2012 and amended by special resolution 6th December 2012, are:

To promote the relief of people who require care due to physical or mental ill health, disability, old age, frailty, substance misuse or any other cause, in particular (but without limitation) by:

1.1 raising the awareness of carers and the general public as to the needs of and difficulties experienced by individuals as a result of their role as carers;
1.2 relieving financial hardship, sickness and distress among carers; and
1.3 the relief of individuals being cared for by improving the quality of their care and rehabilitation through the provision of training, support and advice to carers.

"Carer" means an individual of any age who cares for or nurses a relative, friend or partner requiring this help due to physical or mental ill health, disability, old age, frailty, substance misuse or any other cause.

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

In practice, Carers Worldwide works in partnership with established, well reputed organisations to implement strategies and programmes that will improve the lives of unpaid family carers and those for whom they care. Carers Worldwide designs and develops programmes, provides specialist advice and training and advises on advocacy and policy issues, as well as providing links to other organisations, sources of knowledge, skills and funds. Increasingly, the organisation is also fulfilling its objects through collaborations with other national and international NGOs, local government in the countries where it operates and the private sector through providing training and advisory services.

Public Benefit

The Trustees of Carers Worldwide consider that the activities undertaken to achieve its charitable objectives through a combination of partnership, advocacy and knowledge sharing provide a public benefit to its direct beneficiaries, namely people who require care due to physical or mental ill health, disability, old age, frailty, substance misuse or any other cause and their carers in the countries in which it operates.

The Trustees confirm that they have complied with the duty in section 17 of the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission in determining the activities undertaken by the charity.

During the period from January to December 2025, the charity's key achievements included:

- Reached 5,106 new unpaid family carers and the 5,125 relatives they care for, including 2,930 disabled adults and children and 2,195 people living with mental health conditions. Through practical support, the organisation continued to transform lives and strengthen the visibility and recognition of unpaid family carers across India, Nepal and Bangladesh.
- Continued implementing the charity's 2023–2025 Strategic Plan, expanding grassroots partnerships and working with national and international NGOs to extend its reach.
- Co-designed, secured funding for and implemented programmes with 13 partner organisations across five states in India, as well as in Nepal and Bangladesh.
- Completed the transition of three implementing partners in Odisha, India – Ekta, SPREAD and WORD – to Resource Partner status.
- Continued to raise awareness of the needs of unpaid family carers with local authorities and service providers through sustained advocacy in collaboration with partners in India, Nepal and Bangladesh.
- Secured the continuation of the Carers Allowance in the Government of Karnataka's annual budget. The allowance supports carers of people with seven categories of disability and has the potential to benefit more than 150,000 unpaid family carers.
- Supported the establishment of more than 2,700 carers groups (1,600 in 2024 and 1,100 in 2025) in collaboration with the Government of Karnataka.
- Celebrated the UN's International Day of Care and Support with project partners and the Government of Karnataka. During the celebrations, 10 unpaid family carers received state awards in recognition of their dedication and support for their loved ones. This was the first time that the Government of Karnataka had presented awards specifically to family carers.
- Provided consultancy and advisory support to international charities to help integrate carers' issues into their existing programmes.

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

- Participated in national and international policy and advocacy initiatives to raise awareness of the needs of carers globally.
- Continued to strengthen the charity's governance.
- Further raised the profile of the charity in the UK and internationally through increased social media activity and participation in media interviews, podcasts and webinars.
- Continued to raise funds from trusts and foundations, individuals, community groups and major donors, achieving the highest annual income in the charity's history.

Staff and Trustees continued to work according to the charity's operational plan and fundraising strategy, which complement the charity's strategic plan. This suite of documents, along with the charity's vision, mission and strategic goal statements and its core values, communicates clearly to staff, Trustees, beneficiaries, partners, donors and other key stakeholders our aims and how we will reach them.

Vision

Our vision is a world in which every carer is valued and their needs are met.

Mission

Our mission is to achieve recognition of the role of carers and to transform the lives of carers, their families and their communities.

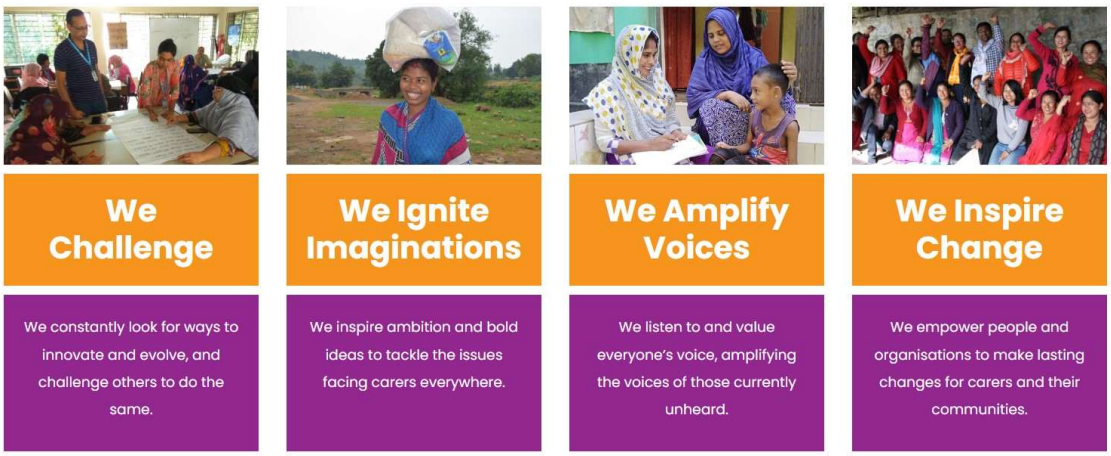

Strategic Goal

Our strategic goal is to **act as a catalyst** to:

1. **Change attitudes and promote support** for carers, their families and communities, empowering them towards better health, wellbeing and economic security

2. **Inspire systemic change** in the government, private and third sectors so they recognise and respond to the needs of carers

OUR CORE VALUES

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

Strategic Plan

The charity continued to implement its strategic plan for the period 2023 – 2025, following a mid-term review which resulted in amended objectives and outcomes as follows:

1. To increase the reach and impact of the Carers Worldwide model, thereby achieving greater inclusion of family carers in low and middle income countries by:
   - empowering existing partners to mainstream and advocate for carers and to demonstrate the benefits of doing so
   - establishing new partnerships with carefully selected organisations based in low and middle income countries who are well placed to deliver the Carers Worldwide model.

2. To achieve recognition of family carers at governmental and inter-governmental level by:
   - building national and regional alliances that will advocate for long term policy change.

3. To enable national and international NGOs and government agencies to support family carers in their respective spheres of influence by:
   - developing and delivering a high quality, bespoke training service focussing on topics relating to carers and caring.

4. To inform future policy and practice by:
   - building up a body of evidence on family carers and the interventions that support them in their caring roles

Desired Outcomes

Our desired outcomes are that by the end of 2025:

- We will have empowered 17 existing locally led partners and up to 6 new partners based in low and middle income countries to raise **awareness and achieve recognition** of the needs of unpaid family carers in their respective regions and **embedded in local communities the skills required to meet those needs**.
- We will have increased the **range of carer groups** with whom we work, specifically young carers, carers of the elderly, carers of people living with dementia, carers of people with cancer, carers of people with non-communicable diseases.
- We will have promoted **three national carers alliances across South Asia** resulting in policy level change for family carers being on the agenda of governmental and inter-governmental agencies across the region.
- We will have brought about **specific changes in the policies of the state and national governments** where we are working which will promote inclusion and support of family carers.
- We will have delivered training to three other national/international NGOs / agencies

Progress towards desired outcomes by the end of this reporting period

- We have engaged in partnerships with 18 in-country partners: 13 in India, 3 in Nepal and 2 in Bangladesh, with 7 of those partners now transitioning from implementing partners to resource partners (6 in India and 1 in Nepal)
- We have completed the process of transition of 7 implementing partners to resource partners with whom we continue to have active non-financial partnerships aimed at further promoting

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

the issue of carers amongst local government, communities, service providers and NGOs in their geographic locations.

- Through our collaborations with other NGOs we have impacted greater numbers of carers of the elderly and carers of people living with dementia, as well as continued to work with a majority of carers of disabled children and adults (with increasingly complex conditions) and carers of people living with a range of mental health conditions.
- We have promoted national Carers Alliances in India, Nepal and Bangladesh which are gaining in local autonomy and preparing national strategies and actions.
- At state level in India, through our strong relationship with the Government of Karnataka, we have secured implementation and subsequent extension of a carers allowance for the first time with the necessary funding included in the state budget for 2024/25 and 2025/26.
- We have secured contracts with two national / international NGOS and one government agency, enabling training of their staff and subsequent impact on unpaid family carers in new parts of India and in Kenya.

The Carers Worldwide model remains at the core of the charity's work. The model consists of five core elements:

- **Carers' support groups** - to reduce loneliness and isolation, create social networks and support emotional wellbeing;
- **Health services** - to provide access to physical and mental health services, including locally available counselling services;
- **Respite and short breaks** - to offer a break from caring responsibilities along with the development of alternative high quality care options such as day care centres;
- **Employment, training and education** - to facilitate access to employment, training or education, tailored as appropriate to co-exist with caring responsibilities;
- **Advocacy -** to strengthen the collective voice of carers to advocate for their needs and the provision they require at community, regional and national level, leading to changes in policy and practice.

We continued to strengthen the charity with regard to its statutory obligations and the desire to comply with best practice as set out by the Charity Commission.

Achievements and performance

Carers Worldwide works with established local partner organisations across India, Nepal and Bangladesh to deliver its programmes. In 2025, the charity worked with 14 implementing partners and strengthened its relationships with 4 resource partners. During the year, three partners in Odisha, India – previously implementing partners – successfully transitioned into resource partners. Together with its partners, the charity reached 5,106 new unpaid family carers and 5,125 family members living with disabilities or mental health conditions. Since its inception in 2012, Carers Worldwide has reached 279,664 people in total, including 46,775 carers, 47,252 people with disabilities or mental health conditions, and approximately 185,637 other immediate family members. More than 86% of carers supported are women and girls.

Carers have benefited from packages of holistic support, tailored to their individual needs and promoting their social, mental, physical and economic wellbeing. This has taken the form of mutual support groups; access to general and specialist healthcare; counselling and emotional support; vocational training and access to micro-finance; and respite opportunities. Carers have also had the

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

opportunity to take part in group activities focussed on equipping them to speak up for their rights and the rights of their family members, thus amplifying their voices with local decision makers and leading to long term, sustainable change for them, their families and their communities.

As well as the carers and families that the charity directly impacts through the activities described above, it has continued to impact thousands of other unpaid family carers through its advocacy work. In south India, the state government of Karnataka extended its implementation of the carers allowance introduced in 2024. Initially available to carers looking after a family member with cerebral palsy, Parkinson's, muscular dystrophy or multiple sclerosis, three further conditions were included in the scheme for the financial year 2025/26 with the potential to reach a total of 150,000 carers across the state. The charity and its partners continue to advocate for further extension and strengthening of this vital financial support.

Programmes – India

During the period, the charity continued working with its existing 13 partners across five states in India, expanding to include a larger number of carers and individuals receiving care into existing and new projects. Three more partners – Ekta, SPREAD and WORD in Odisha – joined the existing group of resource partners – NBJK in Jharkhand, SACRED in Andhra Pradesh and SAMUHA in Karnataka. They all continue to remain active in the Carers Worldwide partner network, actively including unpaid family carers into their programmes, further strengthening district level Carers Associations and state level Carers Forums, and acting as sources of information and learning for NGOs newly interested in the issues facing carers.

Carers Worldwide India, which has been operating as an independent Trust in India since December 2018, continued to receive close support from the Executive Director of Carers Worldwide, who also serves as a Trustee on the Carers Worldwide India Board. The charity supports Carers Worldwide India by providing strategic, operational, and fundraising capacity. The Carers Worldwide India team in-country ensures the effective implementation, monitoring, and reporting of projects and programmes. They also provide the necessary on-the-ground presence to enable consistent advocacy at the local and state government levels, aiming to include carers in existing policies and develop carer-supportive policies and practices. The charity continued to offer technical support to Carers Worldwide India and partner organisations in raising funds for work within India from Indian funders. During the period £5,310 was raised for Carers Worldwide India from individual supporters and training activities (compared to £3,430 in 2024) and £33,222 was raised for a project implemented in partnership with the Vasantham Federation in Tamil Nadu from one Foundation. These funds are raised from Indian donors and are paid directly to Carers Worldwide India. The majority of the funds raised were restricted for specific projects or training activities. None of these funds are received by Carers Worldwide in the UK.

The following is a summary of the activities that took place in partnership with the charity's partners in India:

Karnataka – Margadarshi, BIRDS, Narendra Foundation, Shristi Special Academy

The charity's work with its three rural partners, Margadarshi, Narendra Foundation and BIRDS, continued to strengthen carers' networks and improve carers' access to government benefits, livelihoods and local support systems. The Carers Co-operatives in the Margadarshi and BIRDS project areas were further developed as locally led models for financial inclusion, while advocacy work with Shristi Special Academy in Bengaluru promoted greater recognition and inclusion of

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

carers. Overall, the programmes reached 1,216 new carers, established 100 new carers groups, enabled more than 1,200 carers to access allowances, and supported over 700 carers to earn a sustainable income, improving the social and economic wellbeing of carers and their families.

Andhra Pradesh - UETS

The charity's work in partnership with UETS has focused on further strengthening the District Mental Health Programme in Kakinada and Alluri Sitarama Raju (ASR) districts of Andhra Pradesh, enabling more streamlined identification and treatment of people with mental health needs. Carer representatives and UETS staff have continued to benefit from capacity-building training and mentoring provided by the charity, supporting the sustainability of outcomes.

Odisha – Ekta, SPREAD and WORD

The charity's three partners in Odisha completed their funded projects during this reporting period and transitioned to resource partners within the Carers Worldwide network. Their locally funded activities reached 8,250 people with mental health conditions and their family carers in remote tribal areas of Koraput district.

The projects established 110 new carers groups, improved access to the District Mental Health Programme in remote villages, and strengthened the economic security of 150 families through sustainable livelihood support.

Tamil Nadu – Vasantham Federation and WORD Pudokkattai

The charity's work with the Vasantham Federation, an organisation of people with disabilities based in Tiruvallur, focused on improving access to mental health services, strengthening peer support, and enabling carers to advocate for their needs. It supported 1,500 carers and 1,520 relatives living with mental health conditions, with 65 carers groups providing ongoing support. Through collective advocacy, psychiatric medicines are now available at Primary Health Centres, a significant achievement. Work with WORD Pudukottai supported over 700 carers and 700 relatives living with mental health conditions. Fifteen community volunteers were trained to provide doorstep support and link families with district officials, while 51 carers groups met regularly, strengthening peer support and recognition. Health camps improved access to diagnosis and treatment, and collective advocacy ensured psychiatric medicines are now available at Primary Health Centres.

Programmes – Nepal

During the reporting period, the charity continued to work with its two implementing partners, both highly experienced NGOs operating across urban and rural Nepalese communities. Its longstanding collaboration with its resource partner LEADS Nepal also continued. Organisations affiliated to the Nepal Carers Alliance continued to meet together although progress on advocacy work slowed down due to the political uncertainty in Nepal.

Kathmandu Valley – Self-Help Group Cerebral Palsy (SGCP)

The charity's partnership with Self-Help Group Cerebral Palsy (SGCP), a local organisation working with individuals affected by cerebral palsy and other neurological disorders, in the Kathmandu Valley and across 22 districts continued. The Carer to Carer health project which operated across four rural districts was completed during this reporting period, impacting 1,020 parent carers and family members. The parents who were trained are continuing to use their knowledge and skills to support other parent carers in the areas of basic healthcare, nutrition, therapy and accessing government support. More broadly, SGCP continued to integrate carers into its other programmes of work across Nepal as a result of funding it secured from other international donors.

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

Bagmati province, central Nepal – TPO Nepal

The charity's project being implemented in collaboration with TPO Nepal, one of Nepal's leading psychosocial organisations, completed its first year. 18 local female health volunteers were trained to recognise and promote the mental wellbeing of carers, providing support, advice and regular counselling via home visits to a total of 91 carers. An independent evaluation involving 66 carers who benefited from the project was conducted, which demonstrated significant improvements in emotional and mental wellbeing amongst the carers involved in the project as well as improved physical wellbeing and reduced feelings of loneliness and isolation. There were also positive effects on community awareness and stakeholder engagement. Following this assessment, the project continued into its second year.

Programmes – Bangladesh

The charity continued its partnership with the Centre for Disability in Development (CDD), working with 1,058 carers (all of whom are caring for a disabled child or adult relative) in the Savar sub-district on the outskirts of Dhaka. The Carers Association promoted as part of the collaboration continued to spearhead carer empowerment, lobbying local government for resources and mobilising local community funds. Funding from several Trusts and Foundations supported the continued running of six community caring centres across the project area, providing educational and therapeutic support for around 120 children with complex disabilities and offering emotional support and respite for their carers, predominantly mothers. Further funding was also secured to provide additional medical, nutritional, and therapeutic support for carers and disabled children and adults. A new project was started in the northern rural district of Dinajpur, focussed on initiating community mental health services and support for 502 carers and their 502 relatives living with a range of mental health conditions.

A new partnership was started with Dhaka-based organisation Society for the Welfare of the Intellectually Disabled (SWID) which runs a special school and vocational training centre in Dhaka and provides outreach services to groups of parents nationally. Plans are currently under development for the first joint project.

In collaboration with CDD and SWID, the Bangladesh Carers Alliance continued to meet but advocacy work was put on hold until the new government was elected (February 2026).

Policy work

The charity continued to strengthen its advocacy so that carers' voices are reflected in policy and practice across village, district, state and national levels in India, Nepal and Bangladesh. Through district Carers Associations supported by the charity and its partners, carers are increasingly engaging with local authorities and influencing decisions that affect their daily lives. At state level in India, Carers Forums continued to grow in visibility and influence, while at national level the Carers Alliances brought together government, NGOs, practitioners and academics to strengthen recognition of unpaid family carers in policy discussions. A major policy milestone was achieved in Karnataka, where sustained advocacy led to the introduction and expansion of a Carers Allowance for carers of people with cerebral palsy, muscular dystrophy, Parkinson's disease, multiple sclerosis, autism, intellectual disabilities and complex disabilities such as deaf-blindness, covering seven disability categories. The charity continues to advocate for broader coverage within Karnataka and adoption in other states. Carer support schemes have also been introduced elsewhere in India, including a carers allowance by the Government of the National Capital Territory of Delhi and a

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

caregivers assistance scheme by the Government of Tamil Nadu. In addition, the Government of Karnataka commissioned the charity, through Carers Worldwide India and partners, to train community rehabilitation workers on carer recognition and inclusion. This contributed to the establishment of 2,700 village-level carers groups across the state.

In Bangladesh, working with the Centre for Disability in Development (CDD), the charity supported the introduction of Carers ID cards in collaboration with local social services. These provide unpaid carers with priority access to essential services, particularly in health facilities, leading to shorter waiting times, easier access to treatment, and greater recognition and dignity. The charity also continues to use data on carers' needs and outcomes to strengthen advocacy, improve services, and support the inclusion of carers in wider development policies and programmes.

Networking

The charity continued to increase its visibility and influence, promoting the importance of recognising and supporting unpaid family carers in low- and middle-income countries among NGOs, funders and policy actors in the UK and internationally. Awareness-raising was strengthened through regular sharing of programme learning, case studies and carer stories via the website and social media channels, helping to highlight both the challenges faced by carers and the practical impact of community-based support. This contributed to growing engagement from individuals and organisations working across disability, mental health, ageing and social care sectors. The Executive Director and Development Director also represented the charity at national and international conferences, webinars and sector events, contributing to discussions on carer inclusion in global health and development agendas. These engagements helped position unpaid family carers more firmly within mainstream development thinking and encouraged organisations to take practical steps to integrate carer support into their programmes.

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

Financial Review

The Statement of Financial A ctivities shows an income of £735,328 and expenditure of £333,843 during the period.

The charity implemented its fundraising strategy, focussing on diversifying its income streams to mitigate against the continued impact of aid cuts, changing funder priorities and economic insecurity on the funding available for charities across the sector. Fundraising from Trusts and Foundations continued to be the main area of income with funding secured from four new Trusts and Foundations and repeat funding secured from twelve previous donors. These were primarily restricted funds for specific projects across the three countries of operation and were for both multiyear and single year projects. The charity continued to focus efforts on attracting donations from individual supporters and the number of regular donors increased. It held a second Golf Day event and succeeded in doubling its income from the event. It also ran another match funded festive campaign which successfully combined grants from Trusts and donations from individuals. The fundraising strategy for the year included a strengthened focus on continuing to build engagement with individual and major donors as well as continuing to steward existing donors.

Income increased significantly in comparison to 2024 with a large three year grant secured for expansion of the charity's work in Bangladesh and for organisational development. The whole of this grant was paid in 2025 with the final half being received at the very end of the year. For this reason, expenditure was much lower than income since those funds are to be spent over 2026 and 2027. Total expenditure was higher than in 2024. The majority of funds were dispersed to the charity's partner organisations in India, Nepal and Bangladesh to implement programmes which have now impacted the lives of over 279,600 individuals: 46,775 carers, the 47,252 relatives living with a disability or mental ill-health for whom they care and 185,637 family members.

The charity extends thanks and appreciation to all its supporters for their belief in its work and for their commitment to improving the lives of carers and their families.

The income for the period was spent on charitable activities and enabled the activities outlined earlier in the report to be conducted.

Reserves and reserves policy

The Trustee-Directors reviewed the charity's reserves policy during the year and continue to aim to retain unrestricted reserves of £40,000 or 3 months operating costs (whichever is the largest) to ensure the charity can continue its operations in the short term while seeking further funding as necessary. The Trustee-Directors added a new clause in the reserves policy which outlines the aim of strengthening the charity's financial resilience and supporting its next phase of growth and development by increasing unrestricted reserves to a level of £120,000 within the next three years.

During this period, funds remained above the reserves level at all times. The level of reserves is presented to the Trustee-Directors at each Board meeting and the reserves policy is formally reviewed annually by the Board. The end of year balance of the free unrestricted reserves, over and above the £40K reserve policy, of £26,344 will be spent during 2026 to cover human resources, administration and charitable activities.

Docusign Envelope ID: 407791A4-CB38-89DD-815E-5AFB199E6B47

Risk Management

The Trustee-Directors have reviewed the risks to which a small charity operating overseas with limited funding and five or less employees is exposed. The additional risks presented by the continuation of the sector's funding crisis were reviewed on an ongoing basis and appropriate mitigating actions put in place. Financial management reports are used to identify and monitor financial risks monthly. The careful use of consultants and the experience and expertise of the Trustee-Directors are judged to mitigate the risk of having a small number of paid staff members, and this is reviewed regularly. A Risk Register is maintained which is approved by the Trustee-Directors, with specific areas of monitoring oversight assigned to named Trustee-Directors and staff members. This is discussed at each meeting of the Finance and Risk Committee with key risks and mitigating actions being referred to the full Board three times a year.

Safeguarding

Carers Worldwide is committed to ensuring the safety and wellbeing of everyone with whom it works, including carers, the individuals for whom they care and their families, as well as of the partner staff with whom we work and our own staff, trustees and volunteers. The Trustees review the charity's suite of safeguarding policies and procedures, including its code of conduct every three years, and pay close attention to latest guidance from the FCDO and sector bodies.

Directors of the company during the year to 31st December 2025 were

Maria Andrews
Jonathan Freeman
David Gill
Pushkaraj Gumaste (appointed 14th March 2025)
Nicole Hunter
Amber Meikle
Maveen Pereira
Pramod Prabhakaran (stepped down 4th July 2025)
Ruwaida Randeree
Jehangir Suterwalla
Dhanya Vamadevan

All currently serving directors were also in place at the date when the directors' report and accounts were approved.

All directors are also trustees.

Statement of Directors' Responsibilities

The Charities Acts and the Companies Acts require the Board of Trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity as at the end of the financial year and of the surplus or deficit of the charity.

In preparing those financial statements the Board is required to:-

- select suitable accounting policies and then apply them consistently
- make judgements and estimates that are reasonable and prudent
- state whether applicable accounting standards and statements of recommended practice have been followed subject to any departure disclosed and explained in the financial statements
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue to operate.

The trustees are also responsible for maintaining adequate accounting records which disclose with reasonable accuracy at any time the financial position of the charity and which are sufficient to show and explain the charity's transactions and enable them to ensure that the financial statements comply with regulations made under the Charities Act.

They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The trustees are also responsible for the contents of the trustees' report, and the responsibility of the independent examiner in relation to the trustees' report is limited to examining the report and ensuring that, on the face of the report, there are no inconsistencies with the figures disclosed in the financial statements.

The trustees are responsible for the maintenance and integrity of the charity and financial information included on the charity's website.

Method of preparation of accounts

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

This report was approved by the board of directors on: 17/08/2026

Carers Worldwide

Independent Examiner's Report to the directors of Carers Worldwide (a company limited by guarantee) on accounts for the year ended 31st December 2025

Charity number: 1150214
Company number: 8083816

I report to the charity trustees on my examination of the accounts of the above charitable company for the period ended 31 December 2025 as set out on pages 17 to 28.

Reponsibilities and basis of report

As the charity's trustees, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

The charity's gross income exceeded £250,000 and I am qualified to undertake the examination by being a qualified member of the ICAEW.

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

· the accounting records were not kept in accordance with section 130 of the Charities Act; or
· the accounts did not accord with the accounting records; or
· the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

The notes form part of these financial statements

The Trustees acknowledge their responsibilities for complying with the requirements of the Companies Act 2006. Under Companies Act 2006, Section 454, on a voluntary basis, the trustees can amend these financial statements if they subsequently prove to be defective.

The Directors of the Company acknowledge their responsibilities for:

- ensuring the company keeps accounting records which comply with Section 386 Companies Act 2006.

- preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of the financial period and of its statement of financial affairs for the period in accordance with the requirements of Sections 394 and 395 Companies Act 2006 and which otherwise complies with the requirements of the Act relating to accounts so far as they are applicable to the company.

For the year ending 31/12/2025 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibility for complying with the requirements of the Act with respect to accounting records and for the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Directors and signed on its behalf:

Date: 17/08/2026

Notes to the accounts

For the year ended 31 December 2025

Carers Worldwide

Accounting Policies

1. Basis of Preparation of the accounts

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)(effective 1 January 2015) - (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102), the Update Bulletin to the Charities SORP (FRS 102) and the Companies Act 2006.

The Charity constitutes a public benefit entity as defined by FRS 102.

The accounts are presented in pounds Sterling (£) which is the functional currency of the charitable company. Monetary amounts in these accounts are rounded to the nearest whole pound.

The Trustees consider that there are no material uncertainties about the Charity's ability to continue as a going concern.

The charity has taken advantage of the exemption in the Update Bulletin amending the Charities SORP (FRS 102) from the requirement to produce a cash flow statement on the grounds it does not qualify as a large company.

Accounting Convention

The financial statements are prepared on a going concern basis, under historical cost convention.

Income

All incoming resources are included in the Statement of Financial Activities when the Trust is legally entitled to the income, it is probable that the income will be received, and the amount can be quantified with reasonable accuracy.

Expenditure

Costs of raisng funds

This comprises costs of raising income for the charity.

Charitable Expenditure

This comprises all expenditure directly relating to the objectives of the charity.

Governance costs

This comprises the costs of running the charity itself as an organisation.

Depreciation Policy

Capital Assets are defined as a unit of property that:

(1) has an economic useful life that extends beyond 12 months; and

(2) was acquired for a cost of over £100

Capital Assets are depreciated over 4 years (25% each year).

Debtors

Debtors are recognised at the settlement amount due. Prepayments are valued at the amount prepaid.

Creditors

Creditors and provisions are recognised where there is a present obligation from a past event that will probably result in the transfer of funds to a third party and the amount due can be measured or estimated reliably. They are recognised at the settlement amount due.

Cash

Cash at bank and in hand includes cash and short term highly liquid investments with a maturity of three months or less from the date of acquisition of opening of the deposit or similar account.

Currency of financial statements

The financial statements are prepared in sterling which is the functional currency of the charity.

Taxation

As a registered charity, the company is exempt from income and corporation tax to the extent that its income and gains are applicable to charitable purposes only. Value Added Tax is not recoverable by the company and is therefore included in the relevant costs in the Statement of Financial Activities.

2. Winding up or dissolution of the charity

If upon winding up or dissolution of the charity there remain any assets, after the satisfaction of all debts and liabilities, the assets represented by the accumulated fund shall be transferred to some other charitable body or bodies having similar objectives to the charity.

Reconciliation of Funds continued

Description of restricted income funds
New funds in 2025

Camellia Foundation

Supports our Community Caring Centres in Bangladesh to provide early intervention, therapeutic and educational activities for children with disabilities, as well as a support system to reduce social isolation for their carers.

CB & HH Taylor 1984 Trust

The grant from the CB & HH Taylor 1984 Trust was received in 2023 and was originally to contribute to a planned project in Tamil Nadu, south India promoting the wellbeing of carers of the elderly. We were unable to raise the full amount required, so we wrote to the Trustees of the Trust to request their permission to use the grant for general purposes. This permission was granted in September 2024.

Allan and Nesta Ferguson Charitable Trust

The project will support Community Caring Centres (CCCs) in Bangladesh to provide early intervention, therapeutic and educational activities for children with disabilities, and support systems to reduce social isolation for their carers. Funding from A&NF would contribute to the costs of six CCCs over 12 months. Each CCC will run 5 days a week and provide therapy and education for around 20 children with disabilities, plus wellness and advice sessions for carers.

Queens University

These are the costs associated with research activities in Bangladesh, carried out in collaboration with Queens University in Kingston, Ontario.

Randaree Charitable Trust

Building and assessing the impact of a frontline work force to support carers in the community – a collaboration between Carers Worldwide, partners of Carers Worldwide and the National Institute of Mental Health and Neurosciences (India) .

Wyn and Ken Lo Memorial Foundation

The grant from the Wyn and ken Lo Memorial Foundation supported the pursuance of the charity's strategic objectives in particular the ongoing development of its partnerships in south Asia.

Funds received to the end of 2024

Major Donors Fund

An ongoing donation from a single donor is supporting the setting up and operation of a free telephone helpline for carers across Nepal in partnership with Self Help Group Cerebral Palsy.

Angus Lawson Memorial Trust

The Angus Lawson Charitable Trust is funding our Community Caring Centres project which offers children and teenagers with disabilities a chance to engage in therapeutic and educational activities as well as provides mothers the chance to socialise and take some time off from caring. Their first one-year grant has funded the operation of two new Community Caring Centres (CCCs) in Savar sub-district, Bangladesh. Their second three-year grant is funding the continuation of the two community caring centres along with a staff development programme for staff and volunteers at all the CCCs operated in partnership with the charity's Bangladesh partner CDD.

Belacqua Charitable

The Belacqua Charitable Trust supported the running of a Community Caring Centre to provide early intervention, therapeutic and educational activities for children with disabilities in Bangladesh.

Be One Foundation

The grant from the Be One Foundation is contributing to the promotion of livelihoods activities for family carers in Karnataka, south India in collaboration with the charity's partner Margadarshi, which will lead to increased financial security for carers and their families.

Bryan Guinness Charitable Trust

The charity was in receipt of two grants from the Bryan Guinness Charitable Trust during this financial year. The first contributed to the running of a new Community Caring Centre in Savar sub-district of Dhaka, Bangladesh, in partnership with the Centre for Disability in Development. The second grant contributed to the promotion of livelihoods activities for family carers in Karnataka, south India in collaboration with the charity's partner the Narendra Foundation, which will lead to increased financial security for carers and their families.

CareTech Foundation

The grant from the CareTech Foundation is for a three-year project, also part funded by the Rangoonwala Foundation, being implemented on the outskirts of Dhaka by our partner The Centre for Disability in Development. Working with just over 1,000 carers of disabled children and adults, the project is further expanding the charity's previous work in the area.

CB & HH Taylor 1984 Trust

The grant from the CB & HH Taylor 1984 Trust will contribute to a planned project which will take place in Tamil Nadu, south India and will promote the wellbeing of carers of the elderly.

Nepal Project

The money raised by the charity's festive appeal is supporting a new project with SGCP, its partner in Kathmandu, Nepal, which will train family carers to provide basic health and wellbeing support to other carers.

COSARAF Charitable Foundation

The COSARAF Charitable Foundation provided a grant to provide nutritious food and vital emergency medical and therapeutic support to disabled children and family carers during the holy month of Ramadan in collaboration with CDD in Savar sub-district of Dhaka, Bangladesh

Daughters of Jesus

The grant from Daughters of Jesus is for promoting the economic inclusion of women carers in India via the promotion of livelihoods and income generation initiatives.

Embracing Carers

A donation from Embracing Carers has been given to support the charity to diversify its income through the development of a training and consultancy offer to corporates and other charities, and specifically to support the personnel costs associated with this development. The charity has been engaged in a process of consultation with potential stakeholders and has completed a business modelling process. This process has now been concluded and the funds will be utilised during the 2023 accounting period. charity's advocacy work in India, specifically to allow them to organise and deliver one state level and one national level workshop to engage stakeholders in discussions about policy relating to carers and to promote state and national level carers forums. A further donation from Embracing Carers was givenin 2025 to support the charity's celebration of its 10 year anniversary and to support our work with charity partners in Odisha who are working with people with mental illness and their carers.

Eurofins Foundation

The grant from the Eurofins Foundation is supplementing the charity's health focussed activities which are promoting the physical health of carers in Savar sub-district, on the outskirts of Dhaka, Bangladesh in collaboration with local partner CDD.

Farthing Trust

An income-generation programme to support unpaid family carers of people with mental illness (PWMI) in the Kakinada district of Andhra Pradesh, India.

Fresh Leaf Charitable Foundation

This grant is supporting our partner, Margadarshi, to deliver livelihoods training and equipment to enable 300 unpaid family carers in Karnataka, south India to generate sustainable income. The grant will also enable the establishment of a revolving fund which will benefit future carers.

Grace Trust

The grant from the Grace Trust is contributing to the promotion of livelihoods activities for family carers in Karnataka, south India in collaboration with the charity's partner the Narendra Foundation, which will lead to increased financial security for carers and their families.

Greendale Charitable Foundation

The grant from the Greendale Charitable Foundation is contributing to a project aimed at promoting the emotional wellbeing and mental health of family carers in rural Nepal, in partnership with local partner TPO Nepal.

King Charles III Charitable Fund

The project supports unpaid family carers in the rural and impoverished area of Chamarajanagar, Karnataka, India. The funds are being used to train 10 local staff.

Kirby Laing Foundation

Barefoot counselling service to improve wellbeing of unpaid family carers.

Anonymous donation

The anonymous donation is for the purpose of developing an online data collection system to better streamline the partners' management of data relating to beneficiaries and our reporting of impact.

P5C Prop Ltd

The donation from PSC Prop Ltd is contributing to the funding of a feasibility study looking at the charity's potential expansion of its programmes into Pakistan.

Rangoonwala Foundation

The grant from the Rangoonwala Foundation is for a three-year project, also part funded by the CareTech Foundation, being implemented on the outskirts of Dhaka by the charity's partner The Centre for Disability in Development. Working with just over 1,000 carers of disabled children and adults, the project is further expanding our previous work in the area. A second grant from the Foundation during this financial year is contributing to the funding of a feasibility study looking at the charity's potential expansion of its programmes into Pakistan.

Scott Bader Commonwealth

The grant from Scott Bader Commonwealth is supporting a new project in partnership with the charity's local partner BIRDS in south India. This project will train 150 carers to establish enterprises that will generate an income and promote their family's economic inclusion and financial security.

SMB Trust

The SMB Trust provided a grant to support our livelihoods project in partnership with the Narendra Foundation in Tumkur district in Karnataka, India. The 12-month project directly addressed the financial hardship and wellbeing of 75 carers and their families, alongside establishing a sustainable programme that will benefit future carers, leaving a long-term legacy that will positively impact many more lives over the coming years.

Souter Charitable Trust

The grant from the Souter Charitable Trust contributed to the promotion of livelihoods activities for family carers in Karnataka, south India in collaboration with the charity's partner the Narendra Foundation, which will lead to increased financial security for carers and their families.

Hemraj Goyal Foundation

The one-year grant from the Hemraj Goyal Foundation is to support the charity's work across India with a specific focus on strengthening carers groups, livelihoods initiatives and advocacy efforts.
