Our Aims and Objectives

Our charity's purposes, as set out in the objects contained in the company's memorandum of association, are to:

1. **The relief and assistance of people** in any part of the world who are the victims of war or natural disaster, trouble, or catastrophe, in particular by the supply of medical aid to such persons and organisations caring for them.

   For the purpose of this clause "medical aid" means goods, services and facilities necessary for the provision of medical treatment and rehabilitation; financial assistance for covering the cost of medical treatment and rehabilitation.

2. **To promote social inclusion** for the public benefit by preventing people from becoming socially excluded, relieving the needs of those people who are socially excluded and assisting them to integrate into society.

   For the purpose of this clause, "socially excluded" means being excluded from society, or parts of society, as a result of one of more of the following factors:

   - unemployment;
   - financial hardship;
   - youth or old age;
   - ill health (physical or mental);
   - substance abuse or dependency including alcohol and drugs;
   - discrimination on the grounds of sex, race, disability, ethnic origin, religion,
   - belief, creed, sexual orientation or gender re-assignment;
   - poor educational or skills attainment;
   - relationship and family breakdown;
   - poor housing (that is, housing that does not meet basic habitable standards;
   - crime (either as a victim of crime or as an offender rehabilitating into society).

3. **To advance the education** of the general public in Ukrainian culture and its history.

Ensuring Our Work Delivers Our Aims

We conduct an annual review of the charity's activities to assess how effectively we are meeting our charitable aims and objectives. This review considers our achievements over the preceding 12 months, the outcomes of our projects and the benefits delivered to the people and communities we support.

The review also helps ensure that our activities remain aligned with our charitable purposes. When assessing our achievements and planning future activities, the trustees consider the Charity Commission's guidance on public benefit.

Who Used and Benefited from Our Services

In 2025, British-Ukrainian Aid continued to provide essential humanitarian and medical assistance to people affected by Russia's war against Ukraine. The charity continued supplying ambulances and evacuation vehicles to hospitals, frontline medical teams and organisations providing emergency assistance in Ukraine. These vehicles play a vital role in transporting injured people, delivering medical supplies and enabling emergency medical teams to reach those in need.

The charity also continued working with partners in Ukraine to support amputees and individuals with complex injuries. Through targeted funding and coordinated donations, we helped provide specialist medical treatment, prosthetic components and access to rehabilitation programmes, supporting injured individuals in regaining mobility, independence and quality of life.

Throughout 2025, British-Ukrainian Aid continued procuring components for Individual First Aid Kits (IFAKs) from reliable UK-based suppliers. This helped maintain the quality and reliability of essential medical supplies while supporting British businesses and responsible procurement practices. Working with volunteers and partner organisations, we continued assembling and delivering first aid kits to Ukraine.

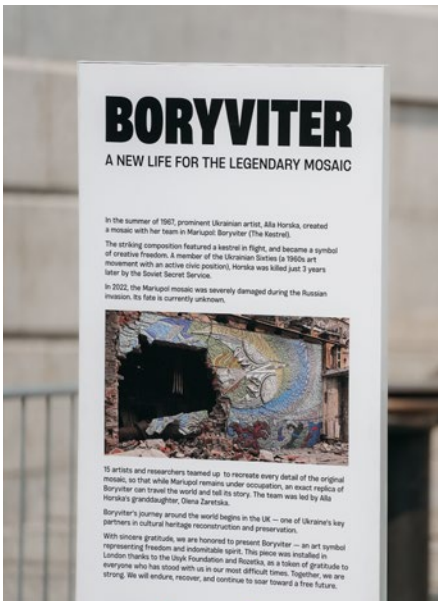

Raising Public Awareness and Promoting Ukrainian Cultural Heritage

Alongside our humanitarian activities, British-Ukrainian Aid continued to raise awareness of the war in Ukraine, its impact on civilians and the destruction of Ukrainian cultural heritage.

During 2025, the charity organised two major public events in Trafalgar Square, bringing together the Ukrainian community, British supporters and members of the wider public. These events highlighted Ukraine's continuing humanitarian needs, encouraged public engagement and strengthened solidarity between the British and Ukrainian people.

One particularly significant cultural initiative was the unveiling of a recreation of Boryviter (The Kestrel), a celebrated mosaic by Ukrainian artist Alla Horska, on 14 July 2025.

Alla Horska (1929–1970) was an influential Ukrainian artist, monumental painter and human rights activist, recognised as a leading figure of the Ukrainian cultural movement of the 1960s. She opposed Soviet repression and defended Ukrainian cultural identity. Her life was tragically cut short in 1970, when she was murdered in circumstances widely attributed to the Soviet security services.

Her original mosaic in Mariupol was severely damaged during Russia's siege of the city in 2022. Its recreation and public exhibition in central London symbolised both the destruction of Ukraine's cultural heritage and the determination to preserve Ukrainian art, history and identity.

Yaroslava Gres and Ukraine WOW led the initiative, with support from British-Ukrainian Aid. Prominent public figures attended the unveiling, including Ukrainian boxing champion Oleksandr Usyk and British entrepreneur Sir Richard Branson, helping bring wider public attention to the artwork and its significance.

By supporting the presentation of this important work of Ukrainian art in one of London's most recognisable public spaces, the charity helped introduce Ukrainian cultural heritage to a broader British audience.

These public engagement activities complemented our humanitarian mission by raising awareness of Ukraine's ongoing needs, strengthening community connections, and encouraging sustained public support.

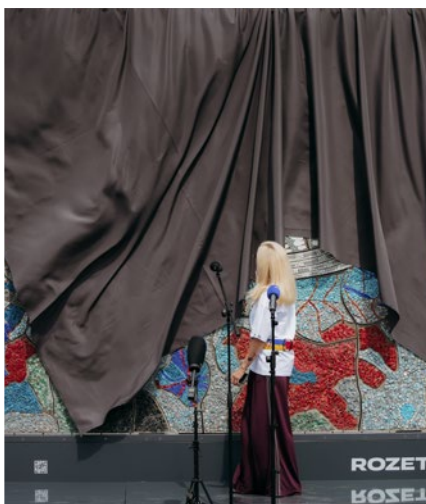

Together, our medical, humanitarian, rehabilitation and public awareness activities demonstrate British-Ukrainian Aid's commitment to supporting people affected by the war while promoting understanding, solidarity and meaningful public engagement in the United Kingdom.

The Charity's Main Areas of Help in 2025

Charity's Main Areas of Help and Activities

Our focus in 2025 has remained consistent with the priorities identified in 2022, ensuring ongoing support where it was most needed. The team continued to provide aid to those affected by the war in Ukraine, maintaining our core objectives: facilitating the evacuation of the injured and wounded, supplying essential medical equipment and aid, and supporting local organisations delivering frontline humanitarian support.

Evacuation Vehicles

We provided evacuation vehicles specifically configured to transport injured and vulnerable individuals from areas affected by war to safer regions or medical facilities. These vehicles play a critical role in ensuring that the wounded receive urgent care and that civilians can escape life-threatening environments.

Ambulance Vehicles

We continued to deliver ambulances to support emergency response teams, hospitals, and medics working under dangerous conditions near the front lines. These vehicles are vital for saving lives, stabilising casualties, and ensuring timely access to medical care.

First Medical Aid

In partnership with volunteer groups, we supplied and assembled thousands of first aid kits. These were distributed to paramedics and civilian responders, enabling them to provide immediate care in emergencies.

Medical Equipment and Aid

We delivered a wide range of essential medical equipment and consumables, including tactical medicine supplies, hospital beds, diagnostic tools, and prosthetic components. We also funded medical treatment and rehabilitation for the severely injured, including surgeries and prosthetics.

Power Equipment & Generators

To support hospitals, stabilisation points, medical institutions, and paramedics during extended power outages, we supplied power stations, portable batteries, and generators. This equipment helps maintain critical medical services and communication in areas affected by infrastructure attacks.

Our online platforms and social media channels continued to raise awareness and improve public understanding of Ukraine's history, culture, and current humanitarian situation.

Provision of Essential Medical Supplies and Equipment

The examples highlighted in this report represent only a selection of the humanitarian and medical assistance British-Ukrainian Aid delivered throughout 2025.

British-Ukrainian Aid procured and supplied a MEQU °M Warmer System PLUS (MWS002) to the First Separate Medical Battalion in Ukraine, strengthening its emergency medical capabilities.

The equipment enables rapid warming of blood and intravenous fluids during emergency transfusions, helping to prevent hypothermia and improve the treatment of critically injured patients during pre-hospital care and medical evacuation.

Bedside Tables and ICU Trolleys for the Bone Marrow Transplantation Department

The Bone Marrow Transplantation Department at the Clinical Centre of Children's Medicine, operated by the Lviv Regional Council, received bedside tables and ICU trolleys to support patient care and improve the department's medical facilities.

The equipment supports specialised paediatric care by improving the clinical environment, enhancing patient comfort, and enabling healthcare professionals to provide safe, efficient treatment to children undergoing complex bone marrow transplantation procedures.

"This equipment helps us provide safe and effective care for children undergoing complex treatment. We are grateful to British-Ukrainian Aid for supporting our patients and medical team."

Severyn Ferneza, Acting Head of Clinic, Oncologist,
Clinical Centre of Children's Medicine, Lviv

Specialist Burn and Reconstructive Surgery Equipment

In partnership with Medical Life Line Ukraine (MLLU), specialist surgical equipment was procured and delivered to a hospital in southeastern Ukraine, including:

- Dermatome Complete Set
- Dermatome Blades
- Humeca Mesher Complete Set with Case and Expansion Carriers

This essential equipment enables surgeons to perform skin grafting procedures, supporting the treatment of patients with severe burns, traumatic injuries and complex wounds.

The Ministry of Health of Ukraine underscored the importance of this contribution by identifying dermatomes as critically needed equipment, with at least six hospitals across the country requiring similar support.

"This equipment enables us to perform vital skin grafting procedures for patients with severe burns and complex wounds.
Thank you to British-Ukrainian Aid for this essential support.

Ihor Bielkin, Surgeon,
Head of the Operating Department

Helping the Injured with Prosthetics and Rehabilitation Treatment

British-Ukrainian Aid has a longstanding partnership with Citizen24, a Kharkiv-based NGO, working together to support injured Ukrainian veterans through specialist medical treatment and rehabilitation. Building on this established cooperation, the charity recently contributed £8,360 towards essential medical care, including surgical implants and rehabilitation programmes, helping injured veterans regain mobility, independence and improve their quality of life.

Supporting Medical Treatment and Rehabilitation

Through its longstanding partnership with the Kharkiv-based charitable foundation Citizen24, British-Ukrainian Aid continued supporting specialist medical treatment and rehabilitation for patients recovering from severe injuries.

In April 2025, the charity contributed towards medical treatment and rehabilitation for three patients recovering from severe injuries:

• **Andrii Samoilenko** received rehabilitation at the Agape Rehabilitation Centre following multiple serious injuries. The programme focused on restoring mobility, improving physical endurance and increasing independence. After treatment, Andrii could walk short distances of up to 20 metres using orthoses and crutches, demonstrating improved mobility and greater independence in daily activities.

• **Oleksandr Kovalivskyi** completed a 30-day rehabilitation programme at the Western Rehabilitation and Sports Centre. His treatment included 52 hours of physiotherapy, 20 hours of occupational therapy, 10 hours of neuropsychological support and 45 hours of recreational activities. The programme improved his walking ability, balance and endurance, with his six-minute walking distance increasing from 407 to 538 metres.

• **Oleksandr Pizhor** received a specialist hip replacement implant to address severe pain and restricted mobility. Following surgery, he experienced a significant reduction in daily pain and improved mobility, supporting his ongoing recovery.

Supporting Recovery and Rehabilitation at Superhumans

Thanks to the joint efforts of British-Ukrainian Aid and the Gleeds Foundation, £20,000 was donated to the Superhumans Centre in Ukraine to support the rehabilitation of people who have sustained life-changing injuries as a result of the war.

Superhumans provides advanced rehabilitation, prosthetics and specialist care, helping patients regain mobility, independence and confidence as they rebuild their lives.

The remarkable story of 17-year-old Anatoliy Gatsan from Kherson illustrates the life-changing impact of this work.

Anatoliy is 17 years old. On October 4, 2025, he was driving through his hometown of Kherson with his pregnant mother, father, and younger brother when the family came under fire. His parents were unharmed, but both brothers suffered serious injuries.

His younger brother Artem was the worst affected — he lost a leg and sustained numerous injuries. Anatoliy himself lost part of his right foot and was wounded in his left leg.

The young man spent the next few months in a wheelchair. At the same time, he continued his online studies in IT and underwent rehabilitation step by step.

Once his wounds had healed, the center's specialists made a brace for his right leg and helped him learn to walk again. His recovery wasn't limited to physical rehabilitation. Anatoliy often cooked in the occupational therapy kitchen, attended music therapy sessions with his brother, relearned how to play the guitar, and took up the drums.

Two weeks ago, another important event took place in the family — their mother gave birth to a son. Now the brothers have another younger brother, and Anatoliy and Artem's main goal is to complete their recovery and return home to their family, who is waiting for them.

After everything they've been through, they dream of very simple things: being with their loved ones, living at home again, and building their future.

Emergency First Medical Aid and Tactical Supplies

In 2025, the provision of first aid medical supplies remained one of British-Ukrainian Aid's key priorities, representing the second-largest area of charitable expenditure. British-Ukrainian Aid spent £282,723 on essential tactical medical components and supplies to support emergency medical care in Ukraine.

Individual First Aid Kits (IFAKs) provide immediate, potentially life-saving assistance to people with traumatic injuries, particularly when professional medical care is delayed or inaccessible. The continued demand for these kits reflects the urgent need for reliable emergency medical supplies in war-affected areas.

Throughout the year, the charity continued procuring high-quality IFAK components from trusted UK-based suppliers. With the invaluable support of dedicated volunteers and our longstanding partner, Support Ukraine UK Ltd, we assembled these components into first aid kits and prepared them for delivery to Ukraine.

Volunteer-Led First Aid Kit Assembly

Volunteer involvement remained central to the charity's IFAK programme throughout 2025. British-Ukrainian Aid continued organising assembly events, bringing together dedicated volunteers to prepare life-saving medical kits for delivery to Ukraine.

Volunteers from partnering organisation Support Ukraine played an instrumental role in these activities, generously contributing their time and effort to assemble the kits and prepare them for distribution to medical personnel and emergency responders operating in high-risk environments.

Among the charity's most successful volunteer initiatives are its IFAK assembly events, which bring employees from major companies to our warehouse to assemble life-saving first-aid kits. These events offer participants a valuable opportunity to see the direct impact of their contributions to Ukraine and to understand how each essential medical component can help save a life in an emergency.

CHICAGO

Supporting Emotional Recovery and Rehabilitation for War-Affected Families

British-Ukrainian Aid continued supporting psychological rehabilitation and emotional recovery programmes for families who had lost loved ones as a result of the war in Ukraine, working with Ukrainian partner organisations to provide opportunities for recovery, social connection and mutual support.

In partnership with the Ukrainian organisation Warm the Soul, the charity supported rehabilitation initiatives that combined psychological assistance, therapeutic activities, and opportunities for families to spend time together in a supportive environment.

Among these initiatives was a restorative trip to Montenegro for bereaved families, organised with Shaleni Karpaty's involvement. The programme offered participants a much-needed break from everyday pressures through outdoor activities, kayaking, boat trips and shared experiences, creating opportunities for relaxation, connection and emotional recovery.

The charity also funded a three-day golf rehabilitation retreat in the Carpathian Mountains, organised with support from GolfMotion and the Ukrainian NGO Syla Zhyttia. The retreat was designed for 17 women who had lost their husbands during the war.

Combining introductory golf sessions with meditation, art therapy, body-oriented practices, outdoor activities and peer support, the programme aimed to help participants manage stress, strengthen emotional resilience and rebuild confidence. A key element was the opportunity to connect with other women who had experienced similar losses and build lasting supportive relationships.

These initiatives reflect British-Ukrainian Aid's recognition that the consequences of war extend far beyond physical injuries. Supporting the emotional wellbeing of bereaved families remains an important part of helping war-affected communities recover and rebuild their lives.

Provision of Ambulances and Evacuation Vehicles

Throughout 2025, ambulances and evacuation vehicles continued to play a vital role in evacuating injured patients and providing emergency medical assistance across Ukraine.

The provision of these vehicles remained one of British-Ukrainian Aid's principal areas of charitable expenditure, with £437,337 spent on ambulances and £247,183 on evacuation vehicles, representing a combined investment of £684,520.

The charity implemented its ambulance programme in close cooperation with Medical Life Line Ukraine, supporting the delivery of essential vehicles to medical teams and organisations providing emergency care.

The successful implementation of these projects relied on the invaluable assistance of local partner organisations in Ukraine, including Flashlight, Kyiv Defenders and others. Their dedicated volunteers played a key role in coordinating logistics, transporting vehicles, and ensuring delivery to the intended recipients.

These partnerships helped ensure that donated ambulances and evacuation vehicles reached those who needed them most and could be put into service to support medical evacuations and save lives.

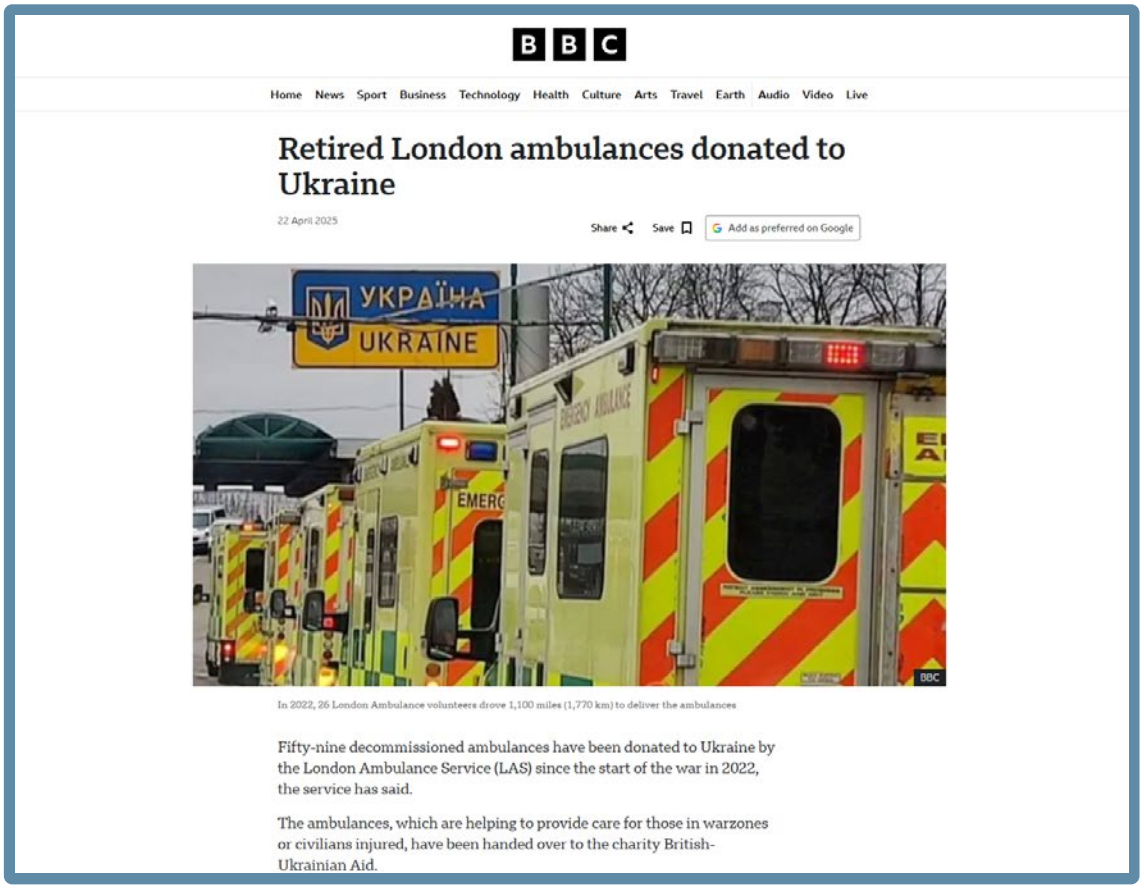

London Ambulance Service – Ambulances Donated to Ukraine

In 2025, British-Ukrainian Aid continued its longstanding partnership with the **London Ambulance Service (LAS)**, facilitating the delivery of decommissioned ambulances to Ukraine to support emergency medical care and casualty evacuation.

As reported by the BBC in April 2025, **59 ambulances had been donated by LAS since the beginning of the full-scale invasion in 2022**, including a further nine delivered to Ukraine in 2025. Although retired from service in London, these vehicles remain valuable assets for Ukrainian emergency responders, helping provide lifesaving assistance to civilians and those injured in the war.

British-Ukrainian Aid is deeply grateful to the London Ambulance Service, its staff and volunteers for their continued generosity and commitment to supporting Ukraine. This partnership demonstrates how repurposing essential emergency vehicles can make a lasting difference in saving lives.

Retired London ambulances donated to Ukraine

22 April 2025

Share Save Add as preferred on Google

In 2022, 26 London Ambulance volunteers drove 1,100 miles (1,770 km) to deliver the ambulances

Fifty-nine decommissioned ambulances have been donated to Ukraine by the London Ambulance Service (LAS) since the start of the war in 2022, the service has said.

The ambulances, which are helping to provide care for those in warzones or civilians injured, have been handed over to the charity British-Ukrainian Aid.

Volunteer Support for Vehicle Deliveries

British-Ukrainian Aid is deeply grateful to all the dedicated volunteers who give their time, energy and resources to help deliver vital vehicles and humanitarian aid to Ukraine.

In summer 2025, four friends, Ben, Fred, Mark and Simon, travelled from the UK to Ukraine, personally delivering two 4x4 vehicles loaded with essential medical supplies. Their commitment exemplifies the remarkable volunteer effort that makes British-Ukrainian Aid's work possible and helps ensure vital assistance reaches those who need it most.

Supporting MOAS Ukraine's Medical Evacuation Operations

British-Ukrainian Aid was proud to support MOAS Ukraine, part of the international humanitarian organisation Migrant Offshore Aid Station (MOAS), which began its operations in August 2014, pioneering search and rescue missions in the Mediterranean.

Since the start of russia's full-scale invasion, MOAS has been providing critical medical evacuation services in Ukraine, transporting seriously injured patients from frontline areas to hospitals offering more advanced medical care.

Its operations focus on emergency treatment at the point of injury, medical evacuation and damage control resuscitation. Teams of paramedics, doctors, nurses, drivers and logistics personnel work in challenging conditions to stabilise patients, provide essential treatment and reduce preventable deaths and complications.

British-Ukrainian Aid supplied several ambulances to MOAS Ukraine, supporting its medical evacuation operations and helping ensure that seriously injured patients could receive timely emergency care. The charity also provided specialised blood-warming equipment, enabling medical teams to deliver critical treatment during transportation.

As Vitalii Lyfar, Operations Director of MOAS Ukraine:

"The ambulances provided by British-Ukrainian Aid enable our medical teams to evacuate people affected by the war while the blood-warming equipment helps us provide essential medical care during transportation."

This partnership highlights the importance of cooperation between humanitarian organisations in strengthening emergency medical services and improving access to life-saving treatment for those affected by the war.

Activities and Fundraising Highlights of the Year

London Marathon and Invictus Spirit Awards 2025 – Supporting Ukrainian Veterans

In 2025, British-Ukrainian Aid was proud to support two Ukrainian veterans, Andrii Kucher and Maksym Zubov, in the London Marathon, raising awareness of the importance of rehabilitation, recovery, and reintegration for wounded Ukrainian service personnel.

Andrii Kucher, a former paratrooper with Ukraine's 79th Air Assault Brigade, sustained severe injuries in 2022. He later co-founded Mitsni 300 (Strong 300), an organisation that supports wounded service members through adaptive sports, rehabilitation, legal assistance, and reintegration into civilian life.

Maksym Zubov, a Ukrainian veteran wounded during the liberation of Sloviansk, is a medallist at the 2023 Invictus Games and an active advocate for veterans' rights and rehabilitation.

The London Marathon fundraising initiative raised £5,323 for Mitsni 300, supporting the organisation's community-based initiatives to make sport and physical rehabilitation more accessible to those injured in the war. The funding helps create opportunities for adaptive sports, particularly in smaller communities, enabling wounded veterans to participate in physical activities, rebuild confidence and strengthen social connections.

On 17 September 2025, Andrii Kucher also took part in the inaugural Invictus Spirit Awards, a charity gala organised by the Invictus Games Foundation at London's historic Old Royal Naval College. He was one of two Ukrainian nominees recognised among approximately 200 international stories of resilience, alongside Oksana Horbach.

Andrii spoke at the ceremony about his experience and the work of Strong 300, highlighting how sport and peer support help wounded veterans rebuild their confidence, independence and sense of community.

British-Ukrainian Aid is grateful to everyone who supported the London Marathon fundraising initiative and is proud to contribute to programmes that help wounded Ukrainian veterans regain independence and reconnect with their communities.

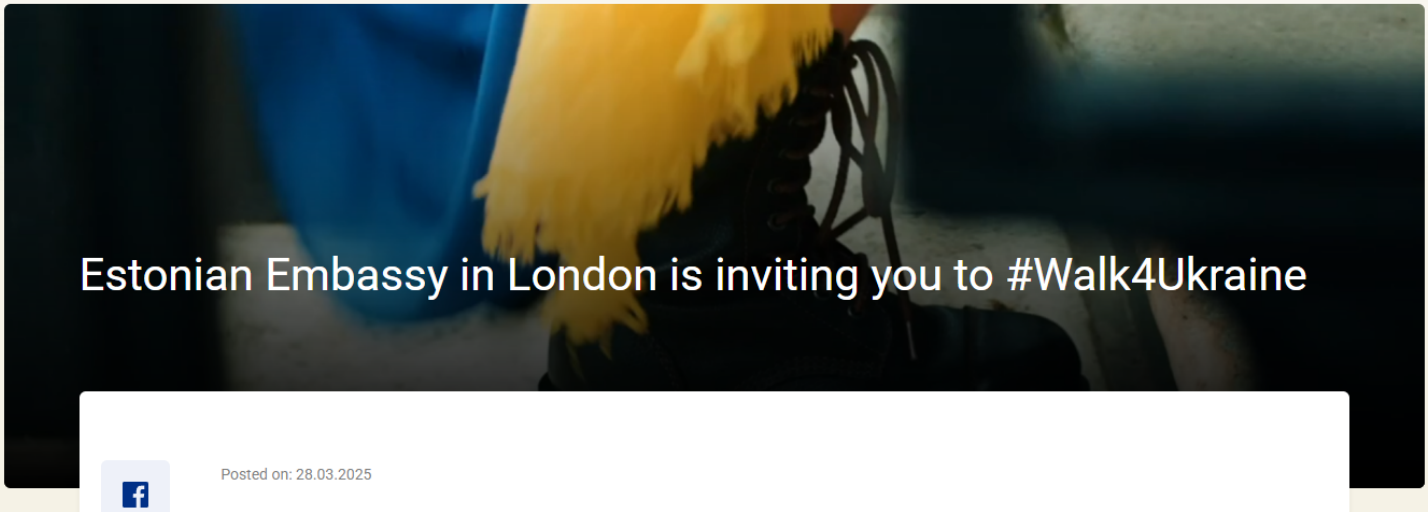

#Walk4Ukraine – Partnership with the Estonian Embassy

In 2025, British-Ukrainian Aid was honoured to be selected as a charity partner of the #Walk4Ukraine initiative, organised by the Embassy of Estonia in London. The campaign encouraged people to turn everyday activities, such as walking, into a meaningful expression of solidarity with Ukraine.

Through the initiative, the campaign raised a total of £70,937 for British-Ukrainian Aid. The funds were used to purchase an ambulance to support lifesaving medical and evacuation work in Ukraine.

British-Ukrainian Aid is deeply grateful to the Embassy of Estonia and everyone who participated in and supported #Walk4Ukraine. The initiative showed the strength of international solidarity and the impact communities can achieve by coming together to support Ukraine.

Europeans need an Electronic Travel Authorisation (ETA) to travel to the UK from 2 April 2025 – READ MORE

Estonian Embassy in London is inviting you to #Walk4Ukraine

Posted on: 28.03.2025

Dear Friend,

Estonian Embassy in London is inviting you to **#Walk4Ukraine**.

We see that Ukraine is not only fighting for its own freedom but for the security of the whole of Europe*. We cannot expect the people of Ukraine to stay strong while we go about our daily lives as usual. So, let's make our everyday actions count and show Ukraine that we stand by them.

Our ask is simple – just go for a walk! Be it your usual morning walk from the station to the office, a weekend family walk in the woods, or a stroll in the park. Be it your daily dog walk or a spontaneous walk to the corner shop. Be it a walk to the top of a mountain or just up the stairs. Make your walk meaningful, make it a **#Walk4Ukraine**.

When you walk, please **wear something blue & yellow** (either an accessory or clothing) to show your support. **Post a photo or video** of your walk on any social media platform and, if you're able, please make a donation to https://u24.gov.ua/ because Ukraine needs our help. Now more than ever.

Thank you. Slava Ukraini!

**On 24 February, russia launched a full-scale invasion of Ukraine, starting the biggest attack in Europe since World War II. The war has resulted in a refugee crisis and tens of thousands of deaths.*

WHAT: #Walk4Ukraine and make it visible
WEAR: something blue and yellow
WHERE: anywhere
WHEN: now
TAG: Estonian Embassy in London
SHARE: on your social media account
DONATE: https://u24.gov.ua/ – an official fundraising platform of Ukraine

We hope you can join our **#Walk4Ukraine** and spread the support around the globe.

Please follow and **share our campaign** on Ambassador's X and LinkedIn, Embassy's X, Facebook and Instagram platform.

If you have **any questions,** please do not hesitate to contact us by email estonia4ukraine@mfa.ee

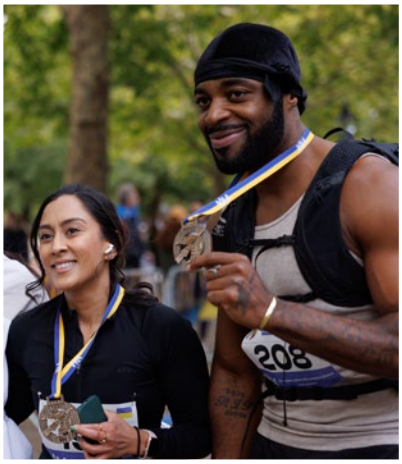

Freedom Run 3.0: Running for Solidarity and Life-Saving Aid

British-Ukrainian Aid was proud to be one of the beneficiary charities of Freedom Run 3.0, a volunteer-led charity race held on 5 October 2025 in Hyde Park, London. Organised by a dedicated team of volunteers led by Oleksandra and Mykola Kuzmenko, the initiative was launched in 2022 to bring communities together and raise funds in support of Ukraine. Freedom Run has since grown into an important community fundraising initiative. In 2025, the event raised approximately £27,000 for

British-Ukrainian Aid, representing 23% of the total funds raised. These funds supported the provision of essential equipment for frontline medics in Ukraine, including portable power stations, power banks, tourniquets and bandages for individual first aid kits.

A particularly meaningful aspect of the event was the participation of Ukrainian veterans recovering from life-changing war-related injuries. They joined the British-Ukrainian Aid team alongside volunteers, supporters and members of the public, demonstrating the importance of sport, community engagement and shared experiences in supporting rehabilitation and reintegration.

First Carpathian YOMP Marathon: Walking for Recovery and Rehabilitation

British-Ukrainian Aid supported the Carpathian YOMP, a long-distance walking initiative held in the Ivano-Frankivsk region on 23 August 2025.

Inspired by the YOMP tradition, the initiative brought together Ukrainian veterans, volunteers, and families of fallen defenders, using physical challenge, time in nature, and shared experience to support rehabilitation, resilience, and social connection. Almost 100 participants completed the 16 km route at their own pace.

The event was developed as an international initiative, with participants and supporters from Ukraine and overseas, and aimed to create an inclusive environment where veterans could undertake a demanding but achievable challenge alongside people who shared and supported their experiences.

Stronger Together: Strengthening Ukrainian Community Networks Across the UK

In September 2025, British-Ukrainian Aid co-hosted the first Stronger Together Forum under the patronage of the Embassy of Ukraine to the UK and in cooperation with Support Ukraine UK. The Forum brought together Ukrainian community organisations, representatives of Ukrainian and British institutions, and partners from across the UK, laying the groundwork for stronger collaboration and a more coordinated approach to supporting Ukraine.

The Ambassador of Ukraine to the United Kingdom, General Valerii Zaluzhnyi, addressed participants, highlighting the Ukrainian community's important role in supporting Ukraine during wartime and calling for continued unity and cooperation.

The Forum also received video addresses from Nadia Kuzmychova, Deputy Minister of Education and Science of Ukraine, and Pavlo Grod, President of the Ukrainian World Congress, both of whom emphasised the importance of mutual support, coordination and cooperation among Ukrainians worldwide.

UK Member of Parliament Joe Powell joined the Forum and reaffirmed the United Kingdom’s ongoing support for Ukraine and the importance of cooperation between Ukrainian communities and their British partners.

Annual Charity Dinner Supporting the Children's Oncology and Bone Marrow Transplantation Clinic in Lviv

British-Ukrainian Aid held its Annual Charity Dinner in partnership with The Worshipful Company of Carmen on 17 October 2025 at Armourers' Hall, London. The event brought together supporters, volunteers, artists, veterans and paramedics for an evening of fundraising and solidarity with Ukraine.

The 2025 dinner was held in memory of Chelsea Pensioner Chris O'Connor, a devoted supporter of Ukrainian children. In his honour, proceeds from the event were directed to support the Western Ukrainian Specialised Children's Medical Centre in Lviv, which provides specialist care for children with cancer.

A highlight of the evening was a special performance by internationally acclaimed mezzo-soprano Friederike Krum, winner of the 2025 Maria Callas Award, whose performance contributed to the evening's special atmosphere.

Ukrainian Christmas Fair Supports Rehabilitation at Superhumans

The Ukrainian Christmas Fair, now a charitable tradition, was held at St John the Baptist Church in Shepherd's Bush, London. The Fair once again brought together Ukrainian artisans, small business owners, artists and singers, many of whom had fled the war to come to the UK.

The cultural programme featured Christmas carol performances soprano Maryana Bodnar, as well as performances by children's and adult choirs from the Association of Ukrainian Youth (CYM) London and St Mary's Ukrainian School. The Ukrainian Youth Theatre Richmond presented a reading of Nikolai Gogol's The Night Before Christmas.

The £5,000 raised at the Ukrainian Christmas Fair was donated to the Superhumans Centre to support the treatment and rehabilitation of 17-year-old Anatoliy from Kherson, who sustained serious injuries when his family came under fire in October 2025. Anatoliy lost part of his right foot and was injured in his left leg.

His treatment at Superhumans included surgery, a specialised training orthosis, rehabilitation, hospital care and medication. After treatment, specialists provided a brace for his right leg and helped him relearn to walk. His rehabilitation also included occupational and music therapy, helping him regain independence and return to activities he enjoyed.

The total cost of Anatoliy's treatment and rehabilitation was approximately £10,002, with the Superhumans Fund covering the remaining cost. The Superhumans cause also received significant support from the Gleeds Foundation, which donated a further £10,000, strengthening the collective contribution towards rehabilitation and recovery for people affected by war-related injuries.

Financial Review

Income and Funding – 2025

In 2025, British-Ukrainian Aid recorded total income of £1,481,756, a 10% increase from £1,345,216 in 2024.

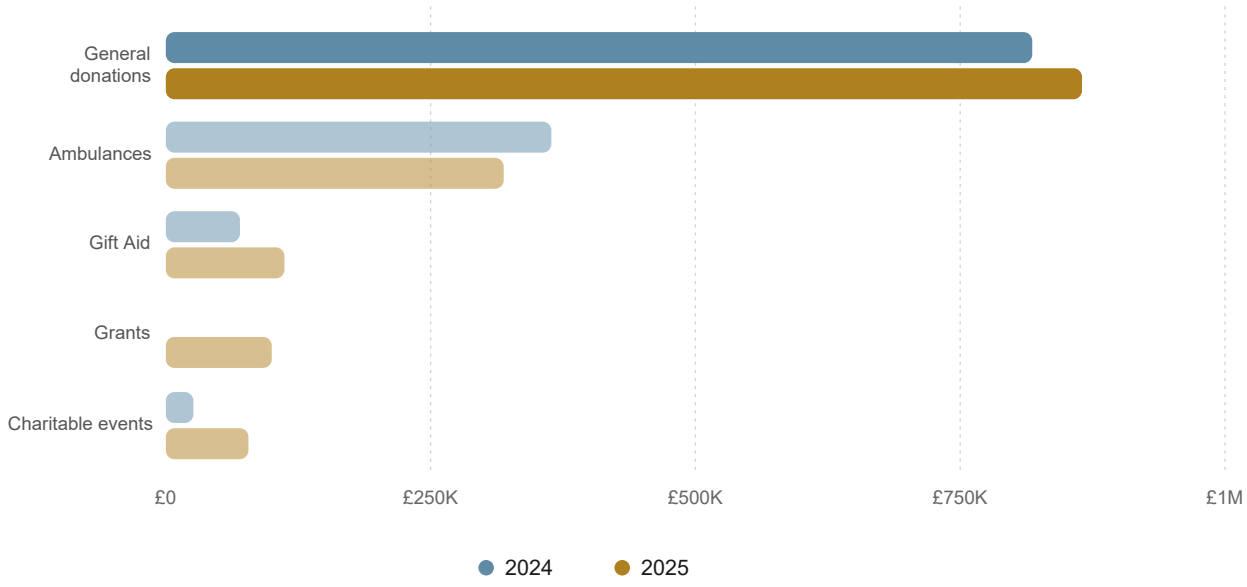

General donations remained the charity's largest source of income, totalling £864,788, followed by ambulance donations of £318,071. Income from charitable events increased significantly to £77,462 from £25,569 in 2024, reflecting the charity supporters' continued commitment and the success of community-led fundraising initiatives.

The charity also received a £100,000 grant during the year, while Gift Aid income increased to £111,464, providing additional resources to support our humanitarian activities.

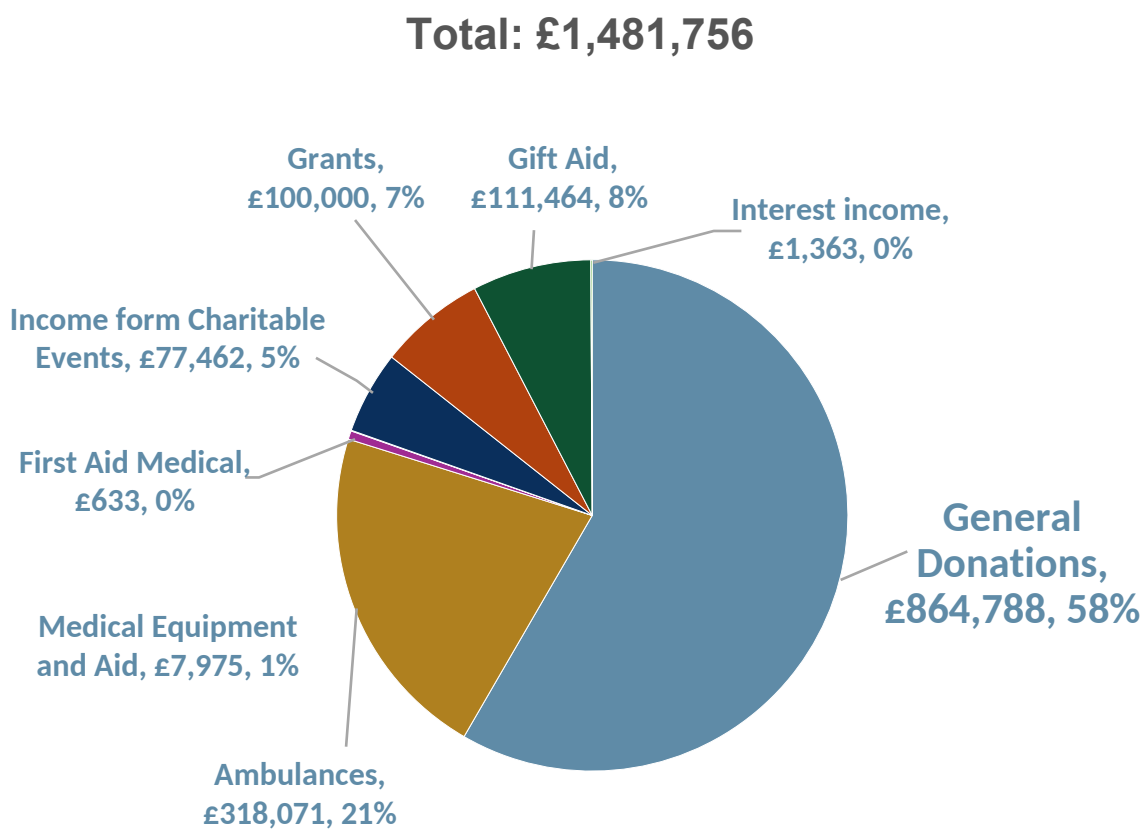

This income growth enabled British-Ukrainian Aid to continue delivering essential medical and humanitarian assistance to Ukraine, despite the ongoing challenges of sustaining public engagement and financial support. We extend our sincere gratitude to all our donors, partners, volunteers and supporters whose generosity and commitment make our work possible. A detailed breakdown of income by category, together with comparative figures for 2024, is presented below.

Income by source: 2024 vs 2025

GBP, comparing the principal income categories

Breakdown of Income by Source in 2025

Charitable Project Expenditure in 2025

Charitable Project	Expenditure (£)

Total	**1,173,163**

Structure, Governance, and Management

British-Ukrainian Aid is a company limited by guarantee (Company No. 09364712; incorporated 22 December 2014) and a charity registered in England and Wales (Charity No. 1164472; registered 19 November 2015).

British-Ukrainian Aid operates under a clear, functional structure that supports the efficient and transparent delivery of its charitable objectives.

Governance

The charity is governed by a Board of Trustees, responsible for strategic oversight, compliance, and governance. Trustees are actively involved in the organisation's decision-making processes and are each assigned oversight responsibilities for specific operational areas.

Volunteer-Led Working Groups

The charity's day-to-day operations are structured into working groups, each focused on a specific area of activity. Each working group consists of dedicated volunteers, many of whom are skilled professionals from diverse industries. Their combined expertise and commitment ensure the organisation operates effectively. The working groups are overseen by an appointed trustee, ensuring alignment with the charity's goals and accountability.

The current working groups include:

1. Ambulance Procurement, Transport & Maintenance

This group coordinates the sourcing, preparation, and delivery of ambulances to Ukraine. Responsibilities include acquisition, vehicle fitting, documentation, and transport logistics.

2. Evacuation Vehicles to Ukraine Project

This group oversees the delivery of evacuation and multipurpose vehicles. The team manages donor engagement, documentation, parking, preparation, and international handovers.

3. First Medical Aid

This group leads on the procurement and assembly of first aid kits, including tactical medicine, collaborating with the charity's partnering organisations and reliable UK suppliers. Volunteers regularly pack and prepare aid at the London warehouse.

4. Medical Equipment & Hospital Support

This group delivers medical equipment and devices, including surgical instruments, prosthetic components, etc. The team also facilitates treatment for injured individuals in Ukraine and abroad, including rehabilitation and prosthetic support.

5. Power Equipment & Generators

Responsible for delivering power stations, generators, and related accessories to hospitals, mobile clinics, and communities affected by energy infrastructure attacks.

6. Events, Partnerships & Fundraising

This group manages donor and community partner engagement. It also organises charitable events, cultural initiatives, and public outreach to raise awareness and support for Ukraine.

7. Administration and Bookkeeping

This team manages the administrative and bookkeeping tasks essential to daily operations. Their responsibilities include record-keeping, financial tracking, documentation, and internal coordination across teams.

The charity also works with an external accounting firm to support the preparation of accounts and the submission of all required annual reports and regulatory filings, ensuring transparency and compliance.

This structured approach allows British-Ukrainian Aid to operate with transparency, agility, and accountability.

Driven by Volunteers, Powered by Compassion

Our team is made up of committed volunteers, many of whom contribute their time and energy to British-Ukrainian Aid in addition to working full-time in their professional lives. Their contribution is the foundation of the charity's operations and has been essential since its earliest days.

Governing Document

British-Ukrainian Aid was incorporated in 2014 and is governed under its Articles of Association. In 2015, the organisation became a charity registered in England and Wales. Articles of Association, including the memorandum, are the primary documents that set out the Charity's operational framework.

Principal Funding Sources

In 2025, British-Ukrainian Aid's income was primarily generated through:

Donations – received from charitable foundations, trusts, corporate donors, and individuals via cheques, bank transfers, cash, and through online fundraising platforms and the charity's website.

Charitable activities – organised by members of the public and volunteers to raise funds and promote awareness of the ongoing humanitarian crisis in Ukraine.

Our key fundraising platforms included JustGiving and the Ukraine Aid – Help Now! appeal, which brought together a wide range of community-led initiatives and national fundraising efforts across the UK.

Additional platforms that supported our fundraising efforts included:

PayPal Giving Fund, UK Online Giving, Charities Trust, Charitable Giving Benevity, Charities Aid Foundation, Crowdfunder Ltd, Payroll Giving, Collection Pot, GoFundMe, among others.

We are deeply grateful for the generous support from individuals, UK businesses, and organisations that contributed directly and encouraged employee participation. Many companies also matched their employees' donations, multiplying their impact.

We extend special thanks to Bloomberg Philanthropies and Google for their ongoing support of employee-led giving and for facilitating direct donations to British-Ukrainian Aid.

We also extend our sincere thanks to Revolut for featuring British-Ukrainian Aid on their app, enabling users to make quick, secure donations directly through the platform.

Risk Management and Internal Control

The Board of Trustees of British-Ukrainian Aid oversees the charity's principal risks and ensures appropriate measures are taken to protect its charitable resources, beneficiaries, and operations.

The charity's approach to risk management focuses on identifying, assessing and mitigating financial, operational, regulatory and reputational risks associated with its activities, particularly the delivery of humanitarian and medical assistance to Ukraine.

Financial controls and procedures for authorising transactions, approving charitable projects and monitoring expenditure form an important part of the charity's approach to managing risk. Operational risks are considered in connection with the procurement, transportation and delivery of humanitarian aid, including cooperation with partner organisations in Ukraine.

During 2025, particular attention was given to financial sustainability, the challenges of maintaining donor support, and the operational risks associated with delivering assistance in a country affected by war.

The charity recognises the importance of regularly reviewing its risk management arrangements and strengthening internal controls to ensure the continued delivery of its charitable objectives.

Income Trends and Financial Challenges

In 2025, British-Ukrainian Aid recorded a 10% increase in income compared with 2024, reversing the decline experienced in previous years following the exceptional surge in donations during 2022, at the beginning of Russia's full-scale invasion of Ukraine.

This growth was primarily driven by increased general donations, successful charitable fundraising events and a one-off grant of £100,000. The grant was awarded specifically to cover the costs of delivering vehicles donated through the ULEZ to Ukraine scheme, helping ensure that these vehicles could be transported to Ukraine and used to support humanitarian, medical and evacuation efforts.

Nevertheless, maintaining sustainable funding remains a significant challenge as the war continues.

Several factors continue to affect the charity's fundraising environment:

- **Donor Fatigue:** The prolonged nature of the war makes it increasingly difficult to sustain public engagement and regular financial contributions.
- **Uncertainty Around the War's End:** The absence of a clear resolution creates uncertainty for donors and makes long-term fundraising and financial planning more challenging.
- **Decreased Media Coverage:** Reduced coverage of the war in mainstream media has contributed to declining public attention, making it harder to maintain awareness of Ukraine's continuing humanitarian needs.

Despite these challenges, the charity remains committed to strengthening donor relationships, diversifying funding sources and developing partnerships to ensure the continued delivery of essential humanitarian and medical assistance to Ukraine.

Reserves Policy

The trustees recognise the importance of maintaining adequate financial reserves to ensure the charity's continued operation, respond to unforeseen circumstances and sustain humanitarian assistance to Ukraine.

During 2025, the charity continued to prioritise direct charitable expenditure, particularly the purchase and delivery of ambulances, evacuation vehicles, medical supplies and equipment, generators and other essential humanitarian assistance.

The charity maintained a cash reserves target of £150,000 for 2025 to mitigate financial risks, ensure operational continuity and support its ability to respond to urgent humanitarian needs.

The trustees recognise the importance of maintaining sufficient unrestricted reserves to meet existing commitments and respond to unexpected expenditure, particularly given the uncertainty of future donations and the changing humanitarian situation in Ukraine.

The level of reserves is reviewed alongside the charity's financial position, anticipated expenditure and operational requirements. Restricted funds are monitored separately to ensure they are used for their designated charitable purposes.

Future Sustainability

To ensure the charity's long-term sustainability and continued ability to support people affected by the war in Ukraine, British-Ukrainian Aid focused on maintaining financial stability, strengthening fundraising activities, expanding public engagement and developing strategic partnerships.

Despite the ongoing challenges of donor fatigue, uncertainty surrounding the war and reduced media coverage, the charity's income remained relatively stable, increasing from £1,345,216 in 2024 to £1,480,393 in 2025.

The charity continued to prioritise responsible financial management, regularly reviewing expenditure, cash flow and available resources to ensure that sufficient funding remained available for its humanitarian activities. The maintenance of adequate financial reserves, as outlined in the Reserves Policy, formed an important part of the charity's approach to financial sustainability.

The charity's key sustainability priorities included:

- **Diversifying Fundraising:** Exploring additional funding opportunities through grants, corporate partnerships, crowdfunding campaigns and individual donations to reduce reliance on existing sources of income.

- **Increasing Public Awareness:** Strengthening the charity's visibility through social media, traditional media and public communications to highlight its humanitarian work and the continuing impact of the war in Ukraine.

- **Organising Public Events:** Developing public events, including documentary film screenings, exhibitions, panel discussions, cultural events and fundraising activities, to raise awareness of the situation in Ukraine, showcase the charity's work, attract new audiences and encourage public involvement and financial support.

- **Strengthening Donor Engagement:** Maintaining regular communication with existing supporters through project updates, impact reports and personalised engagement to build lasting relationships and encourage continued donations.

- **Developing Strategic Partnerships:** Strengthening cooperation with UK-based organisations, businesses, educational institutions and charities sharing similar humanitarian objectives, creating opportunities for joint initiatives and wider community engagement.

Through these measures, British-Ukrainian Aid aims to strengthen its financial resilience, broaden its supporter base and ensure the continued delivery of essential humanitarian assistance to Ukraine.

Charity Policies

To ensure strong governance, consistency, and accountability in our operations, British-Ukrainian Aid has adopted and follows the policies outlined below:

• Financial Internal Controls Policy

Establishes a framework for managing financial transactions and ensuring accountability in the handling of funds. It includes guidelines for budgeting, financial reporting, and internal auditing to prevent fraud and mismanagement.

• Anti-Money Laundering Policy

Outlines procedures to detect and prevent money laundering within the charity. It includes due diligence on donors and partners, training for staff and volunteers, and protocols for reporting suspicious activity to relevant authorities.

• Safeguarding Children and Adults at Risk of Abuse Policy

Ensures the protection of vulnerable individuals involved with the charity. It sets out procedures for identifying, reporting, and responding to allegations of abuse to maintain a safe and respectful environment for all.

• Data Protection Policy

Governs the collection, processing, and safeguarding of personal data in compliance with UK GDPR. It outlines individuals' rights and the charity's obligations regarding the secure and transparent handling of personal information.

• Procurement Policy for the Purchase of Evacuation Vehicles

Outlines the criteria and procedures for procuring evacuation and humanitarian vehicles in line with ethical, financial, and operational standards. It ensures transparency, accountability, and value for money throughout the procurement process.

• **Financial Reserves Policy**

Defines the charity's approach to maintaining sufficient financial reserves to manage risks, respond to unforeseen needs, and ensure long-term sustainability in delivering its mission.

• **Risk Management Policy**

Identifies and monitors risks that could affect the charity's activities, reputation, or strategic goals. It sets out regular reviews and mitigation plans to effectively reduce or manage those risks.

• **Trustee Conflicts of Interest Policy**

Ensures trustees act in the charity's best interests by requiring disclosure of any personal, financial, or professional interests that could unduly influence their decisions.

• **Serious Incident Reporting Policy**

Guides recognising and reporting serious incidents, including financial loss, safeguarding issues, or reputational damage, to the relevant authorities, including the Charity Commission.

• **Complaints Policy**

Outlines the charity's process for handling complaints from beneficiaries, donors, partners, or the public. It ensures concerns are addressed promptly, fairly, and transparently, and that feedback informs improvements.

• **Policy on Reimbursement of Trustee and Volunteer Expenses**

Defines the procedures for reimbursing trustees and volunteers for reasonable, authorised expenses incurred while carrying out their duties. This promotes transparency and responsible use of charitable funds.

• **Social Media Policy**

Sets standards for the charity's communications on digital platforms, ensuring content is respectful, compliant with legal obligations, and aligned with the charity's values and public image.

Plans for Future Periods

The Charity plans to continue the activities outlined in this report in the forthcoming years, subject to satisfactory funding arrangements.

Responsibilities of the Board of Directors

In accordance with company and charity law, the Board of Directors is responsible for preparing financial statements for each financial year that present an accurate and fair view of the state of affairs of the charitable company at the balance sheet date, as well as its incoming resources and application of resources, including income and expenditure, for the financial year.

In preparing these financial statements, the directors have:

- Selected suitable accounting policies and applied them consistently.
- Made judgements and estimates that are reasonable and prudent.
- Prepared the financial statements on a going concern basis, unless it is inappropriate to presume that the charity will continue in operation.

The directors are responsible for maintaining proper accounting records that disclose, with reasonable accuracy, the charity's financial position at any time and for ensuring that the financial statements comply with the requirements of the Companies Act 2006.

In addition, the directors are responsible for safeguarding the charity's assets and for taking reasonable steps to prevent and detect fraud and other irregularities.

Board of Directors and Charity Trustees

The individuals who served as directors (under company law) and charity trustees are listed in the Legal and Administrative Information section of this Annual Report.

The directors confirm that, as far as they are aware, there is no relevant audit information of which the charity's auditors are unaware. They have taken all the necessary steps to ensure that they are aware of any relevant audit information and have communicated this to the charity's auditors.

As directors and trustees of the charity, they affirm their commitment to good governance, financial oversight, and transparency. They have exercised due diligence in the management of the charity's financial affairs and confirm that all relevant information has been provided to the auditors.

Auditors

Goldwins Limited was appointed as the charitable company's auditors in 2022 and has expressed its willingness to continue in this role. Their expertise and commitment have been instrumental in ensuring the charity's financial transparency and accountability, contributing to the ongoing success of our operations.

This report has been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities (issued in March 2005) and in accordance with the special provisions of Part VII of the Companies Act 1985 relating to small entities.

The report was approved and authorised for issue by the trustees on 29.10.2026 and signed on their behalf by:

Wolodymyr Pawluk

Date: 29.10.2026

Independent Auditor's Report

Independent Auditors' Report to the Members of British-Ukrainian Aid

Opinion

We have audited the financial statements of British-Ukrainian Aid ('the charitable company') for the year ended 29 December 2025 which comprise the statement of financial activities, balance sheet, statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 29 December 2025 and of its incoming resources and application of resources for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the [entity]'s ability to continue as a going concern for a period of at least 12 months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the annual report, including the trustees' report, other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006
In our opinion, based on the work undertaken in the course of the audit:

- the information given in the trustees' report, which includes the directors' report prepared for the purposes of company law, for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report included within the trustees' report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report included within the trustees' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate and proper accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the trustees were not entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies' exemptions in preparing the trustees' report and from the requirement to prepare a strategic report.

Responsibilities of trustees

As explained more fully in the trustees' responsibilities statement set out in the trustees' annual report, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is set out below.

Capability of the audit in detecting irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, our procedures included the following:

- We enquired of management, which included obtaining and reviewing supporting documentation, concerning the charity's policies and procedures relating to;
    - Identifying, evaluating, and complying with laws and regulations and whether they were aware of any instances of non-compliance;
    - Detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected, or alleged fraud;
    - The internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations.
- We inspected the minutes of meetings of those charged with governance.
- We obtained an understanding of the legal and regulatory framework that the charity operates in, focusing on those laws and regulations that had a material effect on the financial statements or that had a fundamental effect on the operations of the charity from our professional and sector experience.
- We reviewed the financial statement disclosures and tested these to supporting documentation to assess compliance with applicable laws and regulations.
- We performed analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud.
- In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments, assessed whether the judgements made in making accounting estimates are indicative of a potential bias and tested significant transactions that are unusual or those outside the normal course of business.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities.

Use of our report

This report is made solely to the charitable company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charitable company's members those matters we are required to state to them in an auditor's report and for no other purpose.

To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Accounts

1 Accounting policies

Charity information
British-Ukrainian Aid is a charity registered in England and Wales. The registered office is 154 Holland Park Avenue, London W11 4UH.

Basis of preparation
The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) - (Charities SORP FRS 102).

Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy or note.

Public benefit entity
The charity meets the definition of a public benefit entity under FRS 102.

Going concern
The trustees consider that there are no material uncertainties about the charity's ability to continue as a going concern.

The trustees do not consider that there are any sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Income
Income is recognised when the charity has entitlement to the funds, any performance conditions attached to the income have been met, it is probable that the income will be received and that the amount can be measured reliably.

Income from grants and donations are recognised when the charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount can be measured reliably and is not deferred.

Income received in advance of the provision of a specified service is deferred until the criteria for income recognition are met.

Bank interest on funds is included when receivable and the amount can be measured reliably by the charity; this is normally upon notification of the interest paid or payable by the bank.

Fund accounting
Restricted funds are to be used for specific purposes as laid down by the donor. Expenditure which meets these criteria is charged to the fund.

Unrestricted funds are donations and other incoming resources received or generated for the charitable purposes.

Expenditure
Expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party, it is probable that settlement will be required and the amount of the obligation can be measured reliably.

Costs of raising funds relate to the costs incurred by the charity in inducing third parties to make voluntary contributions to it, as well as the cost of any activities with a fundraising purpose and their associated support costs.

Expenditure on charitable activities includes the costs of charitable activities that are undertaken to further the purposes of the charity and their associated support costs.

Allocation of support costs
Resources expended are allocated to the particular activity where the cost relates directly to that activity. However, the cost of overall direction and administration of each activity, comprising the salary and overhead costs of the central function, is apportioned on the basis of staff time, of the amount attributable to each activity.

Tangible fixed assets
Items of equipment are capitalised where the purchase price exceeds £1,000. Depreciation is provided at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. The depreciation rate in use is 25% straight line for all categories of assets.

Debtors
Debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Cash at bank and in hand
Cash at bank and cash in hand includes all bank balances kept in current accounts.

Creditors and provisions
Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.
