HIGHER KINGDOM CHURCH INTERNATIONAL – ANNUAL ACCOUNTS 2025.

The financial year for 2025 has been challenging as volunteers support has declined and donations gone down, which is affecting our support to execute as aim to do. This was partly due to low offerings and donations from members of the Charity. The church is not raising funds or soliciting financial support from any other group apart from the offerings from members who attend the church, and this is quite sporadic.

The church usually meets online on Fridays and in person on Sundays. This was due to the payment for the venue for Sunday worship. The church aim going forward is to expand our evangelistic mission. The hope is to get members and new people to join the church for moral training, discipline, and magnanimity, benevolence which may increase the number of people that attend.

Higher Kingdom Church International pays monthly rent of £320 this financial making a total. Our income for the financial year which has declined as recorded in annual returns was a shortfall of previous return. Contributions for food items that were given out during the financial year was mainly brought in by individual members of the church which is impacting the Charity's finances.

None of the Trustees receive any pay as the Charity operates on a voluntary basis until such time when it is well established then consideration may be given to hiring staff to manage the Charity. The church will continue to serve the community through creative awareness and moral training to impact the Youth and those that may fall within the scope of our umbrella.

The church offers prayer to the community, educate, and provide counselling opportunities to members of the community. Higher Kingdon Church International is hopeful that the charity will grow and affect the community positively and impact lives in a more collaborative and meaningful manner.

Among some of the activities the church play is Community Outreach on Saturdays, Open door policy around counselling, Feeding the community from time to time depending on the donations that come in.

It is our belief that the church will expand to incorporate sporting activities and youth development in the local area. Once we have acquired our own property, then most of the activities would be indoors during winter and outdoor activities will comprise jogging, walking challenge and excursions to places of interest and prayer retreats.

Higher Kingdom Church International is hopeful that, the charity will grow to affect personal lives and the wider communities within the Brent and other surrounding areas soon. Our Trustees are committed to supporting the church achieve its vision and reach out to vulnerable people in the society with the gospel of Jesus Christ that brings hope, peace and love among humanity.
