Introduction

During 2025 we continued mostly in a hybrid mode of operations with meetings still predominantly online via zoom, facebook live and similar online platforms and with a few meetings in venues physically. Through this hybrid meeting format we benefitted from having a wider coverage and reaching out to more people worldwide. Zoom meetings are weekly.

This method of ministering is much easier, effective and allowed us to better accomplished some of our aim and objective of providing spiritual support to enhance living.

Hope Point had several Prayer request through our website and during our weekly prayer and word connect meetings for healing for family members.

We held weekly bible studies and prayer events for many families and members of the communities

Donations to Hope Point continued as events were organised online. We reached out to more people who donate to us. Our expenditure also increased as we had to spend more funds on the event's social media advertisements

We haven't undertaken any further international ministry trips.

Aims for 2026

1. *Continue to reach out to the community, collaborate with local charity organisations to promote and relief poverty and health and wellbeing.*

2. *Continue to live streaming online meetings to promote Christian faiths*

3. *Have a daily Prayer session for the salvation of the unsaved*
