ANNUAL REPORT LEEDS CARING HANDS
REG: 1184833

Leeds Caring Hands is now fully up and running following the pandemic. Our Chair exercise group on a Monday is doing very well with exercises put together by a professional trainer with funding provided by Sports England previous to the pandemic. The Wednesday group continues to grow and we are about to start an IT session to help people understand and use technology. Leeds City Council has provided 5 Ipads, a signal booster and free data for 2 years which is a tremendous help. This is an exciting year as we have just been nominated by West Yorkshire to go forward to the National level for the Kings Award for Voluntary Services. Hoping for success but happy that we have been nominated.
