ANNUAL REPORT

FOR THE YEAR JAN. TO DEC. 2024

EUROPEAN KNOWLEDGE TREE GROUP

The objective of the European Knowledge Tree Group is for the advancement of health and saving of lives through the advancement of the use of eHealth literacy principally but not exclusively in the United Kingdom and by making educational opportunities available for the development of individual capabilities, competences, skills and understanding of the use of information technology in the field of eHealth.

To date we have facilitated this objective by raising funds to carry out activities such as organising courses for health and education professionals and developing, supporting our Ambassadors Network, maintaining an up to date website and producing a quarterly newsletter.

Management

The charity is managed by a Board of Trustees who meet on a regular basis. The charity employs no staff and buys in expert assistance as and when required such as a webmaster.

Finance

Funding is reliant on the success of our fundraising and donations. All funds are used to directly further the objectives of the charity. During this financial year the charity spent £6,043, most of which was the expenditure on the Mansion House event we had the previous year, held to promote the charity.

During 2024 the charity has updated the website, had regular meetings with the Ambassadors and have produced 4 Newsletters which have been widely circulated and are available on the website.

In 2025 the aim is to continue to promote the charity and good practice in the use of eHealth literacy, support the Ambassadors and provide information for them and those who access the website.
