STAFFORDSHIRE ADULTS AUTISTIC SOCIETY

The board haven't been meeting as frequently as they aught to but are kept informed through other means

SAAS's membership is increasing steadily.

SAAS continues to be the only group in the region offering bespoke peer-support for adult autistics by experts by experience.

Online chat groups continue to thrive and remain a safe place for social interaction, voicing hopes and fears and making friendships.

As well as the regular weekly cafes in Lichfield, Stafford and Newcastle, other satellite meetings are taking place where people need them and when the core team can manage

The core team and members of the group are involved in delivering the Oliver Mcgowan Mandatory training. It's a great opportunity for all.

AS we are reaching the end of the Community fund, we can finally amend our record on the Charity commission website, close the old charity and start a new leaf.

The core team, employees and volunteers alike continue to offer the sterling service.
