Annual Activity & Forward Plan Report

Reporting period: October 2025 – October 2026
Forward plan: October 2026 – October 2027

1. Overview

StarWomen Foundation is committed to empowering, supporting and transforming the lives of women and girls through practical assistance and opportunities for greater independence and wellbeing.

This report provides an account of the Foundation's activities during October 2025 to October 2026 and sets out its priorities for October 2026 to October 2027.

2. Activity Report: October 2025 – October 2026

During the reporting period, the Foundation was unable to carry out its planned charitable activities because sufficient funding was not available. Consequently, no beneficiary support programmes or direct assistance activities were delivered during this period.

The absence of programme delivery reflects a financial constraint rather than a change in the Foundation's charitable purpose or commitment to its intended beneficiaries.

3. Principal Challenge

The principal barrier was a lack of funding to meet the costs of organising activities and providing meaningful support to beneficiaries. Securing sustainable financial resources remains essential to enabling the Foundation to deliver its objectives.

4. Priorities: October 2026 – October 2027

In the coming reporting year, the Foundation intends to prioritise fundraising and the mobilisation of resources so that it can begin delivering assistance to beneficiaries. Planned areas of work include:

- Seeking grants, donations and other appropriate charitable funding opportunities.
- Developing fundraising activities and building relationships with potential supporters and partners.
- Identifying beneficiaries' priority needs and planning achievable support initiatives.
- Providing practical assistance to beneficiaries as funds become available.
- Monitoring funds received, expenditure and programme outcomes to support transparency and accountability.

5. Delivery and Accountability

The scale and timing of activities in 2026–2027 will depend on the funding secured. The Foundation will seek to match its commitments to available resources, keep appropriate financial and activity records, and review progress throughout the year.

6. Closing Statement

Although the Foundation was unable to undertake charitable activities in October 2025–October 2026, it remains committed to its mission. Its focus for October 2026–October 2027 is to strengthen fundraising and translate future financial support into tangible assistance for its beneficiaries.
