CHAIRPERSONS REPORT.

Over the last year, the charity has recognised the strongest sector of the music group to be our greatest avenue.

Many of our young musicians were concentrating on a new project, that of The Beatles. This demonstrated a very positive outlook moving forward.

In February of last year (2025) The music group were able to access a whole group outing to Liverpool for a whole “Beatles” day, including accessing the main places were the Beatles originally performed. The group were treated to dining out and a huge experience to help them with their next project.

When the music group performed a few weeks later it helped by showing how much of their knowledge shone through via their overall performance. This was a huge success, and we were greatly appreciated by the local and wider community.

The youths were also invited out for a day in London, as a treat, where again they accessed a range of areas to see along with food and refreshments.

Our aims and objectives are still in the very heart of the community, ensuring children and young people have a safe space and a voice to be always heard. We value our young people’s opinions and what they would like to happen in their community.

FUNDRAISING AND VOLUNTEERS.

As a youth charity, operating in an area of deprivation, access to sufficient funding remains an ongoing challenge. Withernsea Youth Action Group recognises the need for continued investment in local services and opportunities for young people.

We strive to enable as many young people as possible to access and benefit from our services and activities. As an inclusive charity we aim to provide opportunities to young people of all abilities where possible.

Our trustees and volunteers continue to support the charity through fundraising and activities, donations and look to seeking appropriate grant funding if available. All efforts made help us to maintain our services, meet ongoing costs and build appropriate reserves to support the charity’s continued work and future development.

PARTNERSHIPS.

Our partnerships within the community remain balanced and are therefore continuing to form a strong working relationship for future projects.

Whilst collaboratively demonstrating that the local community can pull together at any given time, also shows a need for support for whenever it is or may be needed.

We also wish to thank the local community as our supporters and acknowledging the work we do to help the younger generation.

Once again, our Youth music festival proved to be major success and allowing us to partner with eternal groups from a wider range of communities, demonstrating that effective partnerships really does bring the community together.

WHAT WE OFFER.

Withernsea Youth Action Group continues to remain to its original aims and ethos. While some of our activities and groups have been underutilised, we recognise this is an opportunity to review and improve the services we provide.

The charity is currently undergoing a significant period of development, with plane to update, revitalise and rebrand the organisation committed to our original ethos of supporting young people and providing inclusive opportunities that respond to the needs of our local community.

CONCLUSION.

The past year has represented a significant period of change and transition for Withernsea Youth Action Group. There have been substantial changes within our trustee and volunteer team, bringing new responsibilities, ideas and a renewed focus of the charity.

We have taken the opportunity to review how the charity operates, the activities and opportunities we provide and how we can strengthen the organisation moving forward. This has help us to identify areas for improvement and establish a stronger foundation for the future.

As a small charity our trustees and volunteers are fundamental to everything that we have achieved and shall continue to do so. I would therefore like to recognise thanks to all of those involved and contributed and stepped forward as the charity enters its next year. Their time, willingness and commitment are greatly appreciated.

Throughout the changes, one thing has remained constant; Young people remain at the heart of Withernsea Youth Action Group.

We remain committed to providing inclusive support and opportunities that encourage participation, confidence, independence, respect and a sense of a belonging within our community.

Most importantly, thank you to the young people themselves. Their voices, ideas and aspirations are the reason the charity exists and will continue to shape our future.

We move forward with a new direction, a clearer and exciting vision for what Withernsea Youth Action Group can become.

Rachel Chester-Wood,

Chairperson.

15th September 2026.
