To: The Charity Commission for England and Wales

Statement Regarding the Charity's Fundraising Activities

On behalf of the Board of Trustees of **Helping Hands Foundation Ghana**, I would like to provide an update regarding the charity's fundraising activities and the challenges experienced during the reporting period.

While the charity was unable to proceed with some of its planned fundraising events, we are pleased to report that we successfully organised a community donation drive. Through the generosity of local residents, friends, family members, and supporters, we collected a range of donated items, including toys, books, clothing, and footwear, comprising both new and gently used goods. These donations have enabled us to continue supporting disadvantaged individuals and families in Africa in line with our charitable objectives.

The trustees are also actively planning a community fundraising event following the Christmas period. The purpose of this event will be to raise funds to cover transportation and shipping costs associated with sending the donated goods to beneficiaries in Africa, which remains a key aspect of the charity's work.

Despite our continued commitment, the charity faced several unforeseen challenges that limited our ability to organise larger fundraising events during the reporting period. These included:

1. Unanticipated personal and family circumstances affecting key individuals responsible for coordinating charity activities.
2. Financial constraints, including limited resources available to secure suitable venues and meet associated event costs.

As a result of these factors, some planned fundraising activities were postponed and did not generate the anticipated income during the period under review.

Nevertheless, the trustees remained committed to advancing the charity's objectives and ensuring that available resources were used effectively to support beneficiaries. The collection and distribution of donated goods enabled the charity to continue delivering meaningful assistance despite the operational challenges encountered.

The Board of Trustees has carefully reviewed the circumstances and is implementing measures to strengthen the charity's future fundraising capacity. These measures include:

1. Expanding and strengthening volunteer recruitment and engagement.
2. Enhancing operational planning and event management processes.
3. Exploring alternative fundraising opportunities, including digital campaigns, community partnerships, and online giving platforms.
4. Ensuring that future fundraising initiatives are financially viable, sustainable, and fully compliant with charity governance and regulatory requirements.

The trustees remain fully committed to the charity's mission and to acting in the best interests of its beneficiaries. We are confident that the steps being taken will improve the charity's ability to organise successful fundraising activities and further support its charitable work in the future.

We remain committed to maintaining high standards of governance, transparency, and accountability and will continue to keep the Charity Commission informed of any significant developments.

Yours faithfully,

Josephine Hilton
On behalf of the Board of Trustees
