Section D – Achievement and performance

Summary of the main achievements:

Work continued to develop the main software offering 'Obadiah'. This links data exported from a third-party church management system and an online database, to provide calendar and rota feeds, including information about teaching series, Bible readings, service names and types. It also provides a monthly prayer calendar of church members, an optional daily Bible reading plan, and receives form data from a website and inserts them into a separate database to simplify Safer Recruitment practices.

Churches were given support for self-hosting their websites and / or the above software to improve their administration.

In addition, email and office software and support were provided to members of the clergy.

Section E – Financial review
