## Society of Glass Technology

## Report of the Council for the year ended 31 December 2025

The Council Members present their Report and the Financial Statements for the year ended 31 December 2025. The Council Members have adopted the provisions of the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" (FRS102) in preparing the report and financial statements of the charity.

### Objectives and Activities

The Society was founded to advance the study of glass technology through the publication of books and journals, the forming and maintaining of a library, to be the organising body of meetings, conferences and exhibitions and to collaborate with other organisations in the pursuit of any common objectives. To do this it:-

- publishes bi-monthly journals *Glass Technology* and *Physics and Chemistry of Glasses*
- issues various other publications from time to time
- organises conferences, meetings and workshops
- purchases books and periodicals for the library

### Public Benefit

In planning the activities for the year the Council Members have kept in mind the Charity Commission's guidance on public benefit. The focus of the activities is the production of journals and the organisation of meetings to ensure that the public benefit from any updates in glass technology and to encourage young people into the industry so that valuable skills are not lost.

### Achievements and Performance

2025 has been a challenging year with membership numbers and income from journal subscriptions being slightly down on the previous year. Sponsorship income and copyright royalties continue to be an important source of income for the Society. Expenditure is tightly controlled to mitigate this decline in income. The two meetings held during the year were a success and generated income for the Society. The Council members continue to examine the operational risks which the Society faces and have systems to monitor and control these risks and strive to increase income for the Society.

### Financial Review

Total income for the year was £239,304 (2024: £348,464) a decrease of £109,160. Total expenditure for the year was £263,666 (2024: £370,255) a decrease of £106,589.

The net gain on the disposal and revaluation of investments totalled £27,887 (2024: £7,347). Overall the results show a net surplus for the year of £3,525 (2024: net expenditure £29,138).

There are no restrictions on the Society's power to invest. The investment strategy is set within an overall policy that funds are invested in low and moderate risk investments, with a view to seeking capital appreciation of the funds, together with income sufficient to support expenditure on direct and support costs.

## Reserves Policy

The Council members aim to maintain a minimum level of reserves which are equivalent to six months average expenditure. At the balance sheet date the level of reserves, after the deduction of amounts held as tangible fixed assets, amounted to £251,696 (2024: £247,977). Where possible surplus funds not required for the day to day running of the Society are held in fixed asset investments with the aim of generating investment income which is a vital contribution to enable the Society to meet its annual expenditure on management, administration and support costs.

The Council members are aware that the current level of reserves are in excess of the level indicated by the Reserves Policy and consider that these reserves will safeguard the society during years when no international meetings are hosted by the Society.

## Structure Governance and Management

The Society of Glass Technology operates under Rules and Regulations which constitute its governing document.

In accordance with Rule 18 of the governing document, the Council shall consist of the President, President-Designate when appropriate, five Past Presidents, being those most recently retired from the office of President and who are willing to serve, up to six Vice-Presidents, the Honorary Secretary, the Honorary Treasurer and up to fifteen Councillors, together with, as ex officio members, the Chairman of the Board of Fellows, and such Presidents of Overseas Sections and Chairmen of Executive Committees of Local Sections and of Technical Committees as are not already members of the Council. No person shall serve on Council unless they are a Fellow or Member of the Society. All Past Presidents not members of the Council shall be entitled to receive all Council papers as though they were members of Council.

Under Rule 28, the President shall hold office for one year, but shall be eligible for re-election for a further consecutive year. The Honorary Secretary and Honorary Treasurer may each hold office for five years and shall be eligible for re-election.

Each year group of Vice-Presidents and Councillors shall retire annually and shall not be eligible for re-election to the same office until after an interval of one year, and a Vice-President shall not after retirement be eligible for re-election as a Councillor until after an interval of one year.

The Council Members who have served during the year and since the year end are set out on page 1. The Council Members meet half yearly, but a Steering Committee, which meets at least four times a year, handles the main business affairs of the Society, and accounts for its actions to the Council meetings. The Steering Committee is also responsible for supervising the activities of the Standing Committees, which cover finance, technical and corporate activities, membership interests and professional issues.

Approved by the Council on 25 March 2026

Alan Stephens

Honorary Treasurer

## Independent Examiner's Report to the Trustees of

## Society of Glass Technology

I report to the charity trustees on my examination of the accounts of the charity for the year ended 31 December 2025 which are set out on pages 5 to 12.

### Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

### Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1) accounting records were not kept in respect of the charity as required by section 130 of the Act; or

2) the accounts do not accord with those records; or

3) the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair view' which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

## 1 Accounting Policies

### (a) Basis of Preparation

The Financial Statements are prepared under the historical cost convention, as modified by the inclusion of investments at fair value. The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland issued in October 2019, the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102), the Charities Act 2011 and UK Generally Accepted Accounting Practice.

### (b) Going Concern

After due consideration of all relevant factors, the Council members have a reasonable expectation that the Society has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the report and accounts.

### (c) Fund Accounting

The General Fund is an unrestricted fund arising on the carrying out of the general activities of the Society.

### (d) Income and Expenditure

Income is recognised in the period in which the Society is entitled to receipt and the amount can be quantified with reasonable accuracy. Income is deferred only when the Society has to fulfil conditions before becoming entitled to the income.

Resources expended are included in the Statement of Financial Activities on an accruals basis, and are recognised when there is a legal or constructive obligation to pay for expenditure and have been classified under headings that aggregate all costs relative to the category.

Charitable expenditure comprises all expenditure directly relating to the charitable objectives. Management and administration costs include a proportion of the salaries of staff for time spent on management and administration matters and an apportionment of establishment expenses calculated on the office space occupied by those staff.

### (e) Fixed Assets

Depreciation and amortisation have been charged to write off the assets over their estimated useful economic lives at the following annual rates:

| | |
|---|---|
| Office Equipment, Furniture and Fittings | 20% on cost |
| Computer Equipment | 25% on cost |
| Website Development Costs | 20% on cost |

Heritage assets
Where information on the cost or valuation of heritage assets is not available or the cost of providing such information significantly outweighs any benefits to the users of the accounts then heritage assets are not recognised on the balance sheet.

1 **Accounting Policies** - continued

(f) **Investments**
Investments are included in the Balance Sheet at fair value. The fair value of quoted investments has been provided by the Society's investment advisers.

The Statement of Financial Activities includes the net gains and losses arising on revaluations and disposals during the year.
The historical cost of investments appears by way of note.

(g) **Stock**
Stock has been valued at the lower of cost and net realisable value after making due allowance for any obsolete or slow-moving items.

(h) **Pension Scheme**

The Society operates a defined Contribution Pension Scheme. The pension cost charge represents contributions payable by the Society to the Scheme in respect of the year.

(i) **Lease Contracts**
Instalments due under Operating Lease Contracts are charged against the income of the Society during the period when payment is made.

| Unrestricted | 251,824 | 347,996 | (370,255) | (9,515) | 220,050 |
| Designated | 31,245 | 468 | - | 2,168 | 33,881 |
| | 283,069 | 348,464 | (370,255) | (7,347) | 253,931 |

14 **Lease Commitments**

At the balance sheet date the Society had total commitments under non-cancellable operating leases over the remaining term of the lease of £869 (2024: £7,819).

15 **Related Party Transactions**

There were no related party transactions during the year (2024 : £nil).

# PUBLICATIONS

*Professor Alastair Cormack has stepped down as the Senior Editor of the European Journal of Glass Science and Technology, with Dr Alex Hannon agreeing to become editor in chief. The regional editorial panel is made up of: Professor Russell Hand, Professor Marek Liska, Professor Yuanzheng Yue, Professor John Parker and Professor Alicia Duran. There is also a panel of subject editors: Angela Seddon: Optics and photonics; Gin Jose: Optical devices; Julian Jones: Bioglasses; Paul Bingham: Nuclear; Emma Barney: Structure; Russel Hand: mechanical properties; Steve Whettingsteel: Sustainability; John Parker: History and Heritage; and Owen McGann & Neil Simpson: Industry.*

*We use the Editorial Manager peer review system to select referees and communicate with authors. Sara Lindley works on Editorial Manager and journal paper layout, David Moore does final proofs, content gathering and news pages.*

*Current issues of the journals are available to view by members on the SGT website: a full PDF issue to download from a tab on the homepage or within the Groups, content is also available via IngentaConnect. All issues of the 2025 journals have appeared as lookbooks (a PDF with animated turning pages), the ability to do this by embedding code on the SGT website has become available. The full 2025 volumes of each journal are available as lookbooks.*

*News content on the SGT website continues being developed. The news items then feed through to news content in the journals.*

*Print on demand continues with Lightning Source as the distributor. Furnaces by Trier is being prepared for print on demand with a few small hurdles.*

*Social media: followers of the Society of Glass Technology on LinkedIn are now 9352. We will do something for the 10,000 follower mark (a prize draw). Other social media is of peripheral interest.*

*David Moore*

# Membership Committee activities since March 2025.

1. Membership Committee meetings have taken place on 12/01/26; 21/10/25; and 21/03/25. The next meeting is planned for 30/03/26.

2. The committee paid its respects following the sad loss of SGT Fellow and Membership Committee member Steve Feller in summer 2025. Steve will be very sadly missed by all. His contributions were thoughtful, warm, collegial, and insightful in equal measure.

3. The committee has been working to address issues including (i) identifying current and lapsed members; (ii) retaining, if possible, lapsed members and ensuring non-payment of membership fees is addressed to ensure income receipts and that members who do not pay after being reminded have their membership rights and access revoked. We are now at a point where this is ready to be actioned, and communications will be sent out by the end of March 2026 to all lapsed members and Fellows requesting they pay their fees or their Membership / Fellowship rights will be removed.

4. The committee (in particular Ines Coutinho, to whom we are extremely grateful) has organised and hosted a series of Christmas Lectures open to all, including members and non-members. These were well attended and learnings were made. A continuing series of online lectures and seminars for SGT members only is being arranged through 2026, with the format being "Lunch & Learn" seminars, again organised and led by Ines Coutinho.

5. Led by Neil Simpson and supported by other committee members, a document outlining the benefits of membership was developed as part of the reminder to renew membership emails that are sent out at the end of each year, and the SGT website was updated with clearer membership fee information. Extracts from the reminder to renew documents need to be added to the SGT website Membership Page to explain the Benefits of Membership. This will be done shortly.

6. Efforts have been made by Paul Bingham (with support from committee members and from John Parker) to engage with other learned societies with an interest in glass. Most overtures have yielded little, however, conversations with the Association for the History of Glass have been positive and are progressing, and it is hoped that joint sessions (H&H) at future SGT meetings could have their attendance enhanced by engaging with AHG and its members. Early activities include sharing invitations to each other's events. These discussions are ongoing and updates are expected in Spring 2026.

7. The revival of the SGT's Indian Section is currently underway, and though this is being handled directly by the Society, we anticipate a substantial growth in SGT membership once this has been completed. The committee will liaise with our new Indian members and invite representatives onto this committee to ensure an appropriate level of representation and communication with Indian members, including exploring joint activities, online webinars and tutorials etc.

8. The committee noted that greater engagement with the SGT's Corporate members is required, and this is being led by Neil Simpson. The committee plans to invite a representative for Corporate Members onto this committee from 2026.

Professor Paul Bingham. Chair of the Membership Committee

# Report of the SGT History and Heritage Committee for April 2025-March 2026

The main activity of this community is to organise the H&H session at the Annual SGT conference in Cambridge (Sept 2025). This was again a successful event with 15 talks planned over 4 sessions. In the event one speaker was unable to attend at the last minute but other talks overran and so a gap in the programme was avoided. A wide range of subjects was presented, ranging from stained glass windows to jewellery created from recycled products and analysis using several different techniques. The meeting concluded with a Bring and Show session led by Colin Brain that proved very successful, perhaps because a number of participants had already left for their journey home, leaving a select group of keen participants.

The planning for 2026 is already well underway with several contributions already in the pipeline.
