

Trustees' activity report 23/24

Our number of volunteers remains low as training dates did not suit 5 new recruits and 3 of these have now left.

We continue to cover our area 24/7 when we are available. We are aware that some calls we should have been alerted to we did not get we have again addressed this with N.I.A.S.

We continue to cover other charity local events for first aid.

Our members have carried out CPR and AED demonstrations with hands on practice to groups and school when requested.

Thanks to Loughmacrory Community Association we now have our office and work on decorating and furnishing it was completed by our volunteers.

We continue to look after our public access defibrillators, ensuring they are kept up to date and in working order.

Our yearly update was carried out by N.I.A.S.
