

Norman Whiteside Sports Facility Annual Report 2023

Norman Whiteside Sports Facility continued to provide a top class 3G sporting facility to the community in the Greater Shankill area. Organisations such as the IFA and Sport Changes Life, working with local clubs and organisations, delivered various projects throughout the year ranging from small sided games to educational programs. As well as this the facility delivered its own summer scheme for the local community during the school holidays. This, added to our Halloween and Easter scheme made it a successful year for everyone involved in the sports facility.
