Fundraising activities 2018;

Our monthly draw continues to be the main fundraising activity, which generates around £3000 per year to go towards the charity expenditure. As well as this the Mind and Body Bootcamp proved a very worthwhile programme not just in terms of fundraising but also for community cohesion and improved physical and mental health.

The Support Group also ran our usual annual activities – Halloween disco, movie nights, Christmas draw, quiz and coffee morning.

Expenditure 2018;

We were delighted to support the Classroom Assistant support implemented in the school this year which was our main cost. We continue to support the travel requirements for the school for various school trips.

Additional grants;

We were fortunate enough to be recipients of DARD funding to equip the classrooms with 3 new iPads, we have purchased this equipment and have been reimbursed from DARD.

We are delighted that our yearly events are so well supported.
