

During the Financial Year to April 2023 the Charity Committee decided that with the rising costs of electric, water, telephone and heating we would reduce the hours and days the Shop would open during the Winter.

We continued where and when possible, to work with a small bank of dedicated Volunteers, and together with the recycling donations from the public and of course their custom we would not have been able to open and assist those in need.

we helped those in need in the area with food for their animals, and help with individual pet spaying, injections and minor treatments. During the year to we gave donations to the Area Vets Group for pets in need when the owners were unable to finance the welfare of their animals. We also paid for microchipping and licencing to the Council Pounds for the release of dogs back to their owners. Guide Dogs for the Blind, Perfect Pussy Rescue, Husky Rescue and ASAP at the Docks benefitted in the surrounding areas.

During the year we were able to hold three Trustee meetings. Sadly during the year one of the Trustees passed away and we have yet to fill the vacancy
