Achievements and performance

I am pleased to report continued improvement in Inspire Business Centre Ltd's performance over the 2022/23 financial year, with further important operational and physical improvements being completed, as well as a very high average occupancy rate being achieved. Much of this was as a result of pro-active and well-focused asset management allied to clear a direction of travel for the business.

Inspire Business Centre has remained active in its' core functions and in particular;

- We continue to provide affordable high speed broadband facilities for all our tenants, which includes 'New Start' businesses, the continued availability of our Voice Over Internet Protocol (VOIP), supported by our high speed, fibre infrastructure enabling a sustainable, affordable, and innovative telecoms system.
- The provision of our solar renewable energy capital investment project continues to generate a profitable revenue stream and we have explored the feasibility of expanding our PV panel capacity, as well as the installation of a battery back-up system.
- While we have been unable to offer the same diverse and challenging range of Enterprise and Economic Development initiatives, as was previously the case, we have sought to expand our influence and impact in regard to the employment and social needs of the local community. While, and as a result of financial constraints and resulting redundancies made during lockdown, we no longer have the necessary staff resources to provide many programmes directly, we continue working with Enterprise NI and Lisburn & Castlereagh City Council to service the needs of small and start-up businesses. In addition, we have further developed our links with Social Enterprise NI, Development Trust NI and various community groups, including Ballybeen Improvement Group, with a view to making a tangible contribution to the local community.
- Continued our effective and efficient protocols to ensure a stable fiscal management of the organisations.
- Maintained our stated objective to maintain an 80 – 95% occupancy range, in relation to our property portfolio. By year end our overall occupancy rate was at or around 97%.
