Structure, governance and management

Improved relationships between home and school - the benefits which flow from this purpose include funding for additional resources for the school and links built with the local community. This is demonstrated through having an active PTA that works in partnership with the school and engages parental support. This purpose does not lead to harm.

The benefit is for children at Fullerton House Preparatory school. The trustees (PTA committee members) are always parents of pupils at the school, and hence enjoy the benefits mentioned above in the same way as all other beneficiaries. The trustees maintain that it is necessary to ensure these benefits are provided to all beneficiaries on an incidental basis.

Objectives and activities

The main aim of the PTA is to maintain relationships between home and school. The PTA proactively works in partnership with the school and garners parental support. As a result, funding for additional resources for the school is generated and links are strengthened with the local community.

Largely, Fullerton House Preparatory School pupils are the beneficiaries. The trustees and PTA committee members are parents of pupils at the school who by association share in the benefits that that PTA works hard to provide.

OFFICERS' ANNUAL REPORT *(continued)*

YEAR ENDED 31 AUGUST 2022

Achievements and performance

Activities of the PTA were once again curtailed by the hangover caused by the Covid-19 pandemic. A number of events were held during school hours involving the children only. A golf day and a summer festival also took place, where relatives and friends were able to take part.

Financial review

The PTA raised £8,181 in the year to 31st August 2022 (2021: £560). It is assumed that the income due to the PTA at the end of the 2021 year was paid as part of sums received from the School Gateway throughout the year (£400).

£707 was spent by the PTA during the year on resources for the school. Other amounts spent were in relation to entertainment and catering at the various events held throughout the year.

The net surplus for the year, taking into account amounts owed to and by the PTA at the year end, amounted to £3,146 (2021: £420)

Plans for future periods

The modus operandi of the PTA has not changed in recent years - those parents who are interested in getting involved will enthusiastically continue to raise money in earnest, with the promise that those in charge of stewardship will put that money to good use for the benefit of the pupils of Fullerton House. There is no immediate need or wish to change the way in which money is raised - the events are held not only to raise money, but to give the children their place and ultimately some fun, and to facilitate friendships amongst the parents. So long as this formula continues to work, the PTA will doubtless continue in its current form.
