

## CUSHENDALL ENVIRONMENT GROUP

We are a small group of local people who volunteer to plant up and maintain a dozen tubs of flowers for the summer season. We also join forces with other local groups to litter pick and weed public spaces. Cushendall has a strong community spirit, and our group feels that our input helps to make our public spaces more attractive to locals and visitors alike.

We have a few Committee meetings each year, an AGM once a year, and run a Coffee Morning to raise funds. We are all volunteers and we get no funding from local Council. Our only "assets" would be the wooden tubs, which need replacing every few years.

Our trustees remain the same people as when we registered.
