

Church Education Trust

Ministry Report.

Covering 1/1/2023-1/12/2023.

Date: 31st July 2024.

This report deals with the challenges that we are facing in the incoming year.

1. The need to take advise about the way we are communicating our educational programs.
2. Do we need to move towards a conversational type of visual discussion groups
3. The introduction of building or using our educational programmes on other platforms, what would that look like? What would the costs be like?
4. It would be good to seek professional help as we try to move forward.
5. The main issue is the continuous development of the introductions of the 66 books of the Bible, I am hoping this can be concluded in 12-18 months,
6. Need to consider a change of editorial and Trustees suitable to cope with the changes to meet the need of a younger generation.
7. We need to consider if our future realising that the presentation of our internet site is the best way to advance or by not facing the challenges we may fail to deliver our programs in the most attractive and efficient way.

Having face these challenges we continue to rejoice in our tasks and as the editor I am personally for all the help that has been afforded to me.

Robert T. Loney (Editor)
