NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

1. General Information

The Courthouse Kesh Limited is a private company limited by guarantee. The company is incorporated in Northern Ireland and has the Company Number NI642905. The registered office is The Courthouse, 45 Main Street, Kesh, Enniskillen, Co. Fermanagh, BT93 1TF.

2. Statement of Compliance

These financial statements have been prepared in compliance with FRS 102 'The Financial Reporting standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP FRS 102) and the Charities Act (Northern Ireland) 2008. The Courthouse Kesh Limited meets the definition of a public benefit entity under FRS 102.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investments properties measured at fair value through income and expenditure.

The charity has availed of the exemption in FRS 102 from the requirement to prepare a cash flow statement because it is classified as a small company.

The financial statements are presented in Sterling (£), which is the functional currency of the entity.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires trustees to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under circumstances.

Significant judgments:

There are no critical judgements in applying the entity's accounting policies.

Key sources of estimation uncertainty:

There are no critical accounting estimates and assumptions.

Fund accounting

General funds are unrestricted funds which are available for use at the discretion of the Trustees in furtherance of the general objectives of the charity and which have not been designated for other purposes.

Incoming resources

All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income:

- Income from donations or grants is recognised when there is evidence of entitlement to the gift, receipt is probable and its amount can be measured reliably.
- Legacy income is recognised when receipt is probable and entitlement is established.
- Income from donated goods is measured at the fair value of the goods unless this is impractical to measure reliably, in which case the value is derived from the cost to the donor or the estimated resale value can be reliably measured. No amounts are included for the contributions of general volunteers.
- Income from contracts for the supply of services is recognised with the delivery of the contracted service. This is classified as unrestricted funds unless there is a contractual requirement for it to be spent on a particular purpose and returned if unspent, in which case it may be regarded as restricted.

Resources expended

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is classified under headings of the statement of financial activities to which it relates:

- Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.
- Expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of the beneficiaries, included those of support costs and costs relating to the governance of the charity apportioned to charitable activities.
- Other expenditure includes all expenditure that is neither related to raising of funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

(A company limited by guarantee)

NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 31 DECEMBER 2023

Investment property

Investment properties whose fair value can be measured reliably without undue cost or effort are measured at fair value, with changes in fair value recognised in the Statement of Financial Activities. Revalued investment properties are not depreciated or amortised, unless the fair value cannot be measured reliably or without undue cost or effort.

Not depreciating or amortising property is a departure from the requirement of Company Law to provide depreciation on all fixed assets which have a limited useful life. However, these investment properties are not held for consumption but for investment and the directors believe that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the financial statements to give a true and fair view.

Tangible assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Fixtures, Fittings and Equipment	20% Reducing balance
----------------------------------	----------------------

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

Financial instruments

The charity only enters into basic financial instruments transactions that result in recognition of financial assets and liabilities like accounts receivable and payable and loans to related parties.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically accounts payables or receivables, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration, expected to be paid or received. However, if the arrangements

THE COURTHOUSE KESH LIMITED
(A company limited by guarantee)

NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 31 DECEMBER 2023

of a short-term instrument constitute a financing transaction, like the payment of debt deferred beyond normal business terms or financed at a rate of interest that is not a market rate or in the case of an outright short-term loan not at market rate, the financial asset or liability is measured, initially, at the present value of the future cash flow discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost.

Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank facilities, are initially valued at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest rate method.

Debtors

Short term debtors are measured at transaction price less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest rate method, less any impairment.

4. Limited by guarantee

The charity is a company limited by guarantee. The members of the charity are the Trustees named on page 2. In the event of the charity being wound up, the liability in respect of the guarantee is limited to £1 per member of the company.
